QUICK START GUIDE

LEXILE QUANTILE
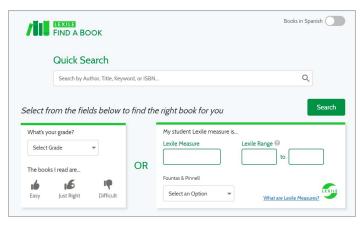

LEXILE FIND A BOOK

Search for books by grade, interest and reading complexity. View a book's most challenging words and create a personal booklist. Hub.Lexile.com/find-a-book

Start Your Search

QUICK SEARCH OPTION

To search for a specific book quickly, enter a keyword, the book's title, the author, or an ISBN.
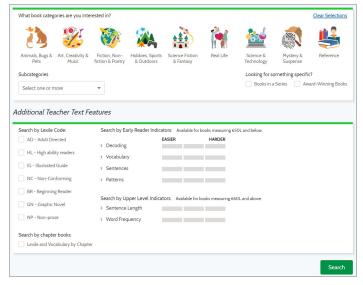

ENTER STUDENT READING INFORMATION

Use a student's reading information to begin your search:

1. To search for a book based on student grade and reading confidence estimate, click the **Select Grade** dropdown arrow and select the correct grade from the list. Next, click on the hand icon that best represents the student's feelings about reading (Easy, Just Right, Difficult).
2. To enter a student's Lexile reading level, type either a student Lexile Measure or a Lexile Range in the corresponding text boxes. The Lexile Range boxes will auto-fill when a Lexile measure is entered.
3. You can start a search by selecting a student's Fountas & Pinnel level by clicking the Fountas & Pinnel dropdown arrow.

Note: To search for books written in Spanish, click the Books in Spanish toggle.

Once you have entered your initial search criteria, continue by narrowing your search or clicking the **Search** button.
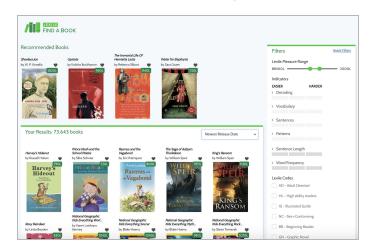

Narrowing Your Search
