

The Secretary of the State advises one of the following methods as a way to estimate the volume of Election Day registration ballots in your town: (1) the number of Presidential ballots cast in 2012, or (2) a general prediction of 2.5 to 5% increase in voter participation over projected voter turn out. For a more customized prediction of your town's potential EDR volume we advise you to calculate 2.5-5% increase based on your towns actual 2010 voter turnout %.

	# of Presidential Ballots 2012	2014 Total active registratio n by town	Anticipated5 5% Turnout	2.5% increase from EDR	to	5% increase from EDR
Andover	29	2098	1153.9	29	to	57.695
