

## **Notice of Intent to Amend, Adopt and Repeal Air Quality Regulations and to Revise the State Implementation Plan**

The Commissioner of the Department of Energy and Environmental Protection (DEEP) hereby gives notice of a public hearing as part of a proceeding to amend, adopt and repeal certain regulations concerning control of air pollution during the transfer and dispensing of gasoline. Upon promulgation, the amended, adopted and repealed regulations will be submitted to the U.S. Environmental Protection Agency as a revision to the State Implementation Plan for air quality.

The proposal repeals RCSA section 22a-174-30 to remove Stage II<sup>1</sup> vapor recovery requirements from the Regulations of Connecticut State Agencies (RCSA) so that the regulatory requirements reflect the current status of the state's vapor recovery program as set out in statute.

Connecticut's Stage II vapor recovery program was authorized by section 22a-174e of the Connecticut General Statutes (CGS), as that section was in effect prior to June 18, 2013. In the 2013 legislative session, CGS section 22a-174e was revised by Public Act No. 13-120.<sup>2</sup> Public Act No. 13-120 mandates the decommissioning of existing Stage II vapor recovery equipment and prohibits the installation of new Stage II vapor recovery equipment at gasoline dispensing facilities (*i.e.*, gas stations).

The proposal consolidates Stage I<sup>3</sup> vapor recovery requirements currently in RCSA sections 22a-174-20(b) and 22a-174-30 as new RCSA section 22a-174-30a. New RCSA section 22a-174-30a is drafted to be consistent with the federal requirements for controlling air emissions at gasoline dispensing facilities (40 CFR 63 Subpart CCCCC). The proposal does not add significant new requirements beyond the federal requirements and the requirements of Public Act No. 13-120.

All interested persons are invited to comment on the proposal. Comments should be submitted no later than 25 July 2014 to Robin D. Baena, DEEP, Bureau of Air Management, Engineering & Enforcement, 79 Elm Street, Hartford, Connecticut 06106-5127. Comments may be submitted by post, facsimile to (860) 424-4064 or by electronic mail to [robin.baena@ct.gov](mailto:robin.baena@ct.gov).

In addition to accepting written comments, DEEP will also hold the public hearing described below. Any person giving oral comment at the hearing will be asked to submit a written copy of such comments.

<sup>1</sup> Stage II vapor recovery systems control vapors during the refueling of vehicles by capturing the gasoline vapors displaced from the vehicles' gas tank and diverting them to the storage tank.
