FOULS AND PROCEDURE

(NEW) Sec. 29-143j-70a. Fouls, professional boxing

(b) Injuries sustained by fouls

(1) Intentional fouls determined by referee

(A) When an intentional foul causes an injury and the injury is severe enough to stop the bout immediately, the boxer causing the injury shall lose by disqualification.

(B) When an intentional foul causes an injury and the bout is allowed to continue, the referee shall notify the commissioner or such commissioner's authorized representative and deduct two points from the boxer who caused the foul. Point deductions for intentional fouls shall be mandatory.

(C) When an intentional foul causes an injury and the injury results in the bout being stopped in a latter round, the injured boxer shall win by technical decision if the injured boxer is ahead on the score cards or the bout shall result in a technical draw if the injured boxer is behind or even on the score cards. Partial or incomplete rounds

shall be scored. If no action has occurred, the round shall be scored as an even round.

(D) When a boxer injures himself or herself while attempting to intentionally foul an opponent, the referee shall not take any action in the boxer's favor, and the injury shall be the same as one produced by a fair blow.

(E) When the referee determines that a boxer has conducted himself or herself in an unsportsmanlike manner the referee may stop the bout and disqualify the boxer.

(2) Accidental fouls determined by referee

(A) When an accidental foul causes an injury severe enough for the referee to stop the bout immediately, the bout shall result in a no-decision if stopped before three completed rounds in bouts scheduled for four rounds. Rounds are complete when the bell rings signifying the end of a round. When a bout is scheduled for more than four rounds and an accidental foul occurs causing an injury severe enough for the referee to stop the bout immediately, the bout shall result in a no-decision if stopped before four completed rounds.

(B) When an accidental foul causes an injury severe enough for the referee to stop the bout immediately, after three rounds have occurred in bouts scheduled for four rounds, the bout shall result in a technical decision awarded to the boxer who is ahead on the score cards at the time the bout is stopped. If a bout is scheduled for more than four rounds and an accidental foul occurs causing an injury severe enough for the referee to stop the bout immediately, after four rounds have occurred, the bout shall result in a technical decision awarded to the boxer who is ahead on the score cards at the time the bout is stopped.

(c) The referee may order a deduction of points for any illegal blow to the body and may grant a rest period of up to five minutes for the fouled boxer to recover. The referee may ask the combat area physician to examine the fouled boxer before granting a rest period.

(d) The referee may disqualify a boxer for a foul or fouls to the body of the boxer's opponent if the referee deems that the foul or fouls are flagrant or continual.

(e) If the referee rules a foul accidental and the injured boxer is unable to continue after the five minute rest period, the rules governing accidental fouls in subsection (b)(2) of this section shall apply.

(f) A boxer who is hit with an accidental low blow shall continue after an amount of time not more than five minutes or the boxer shall lose the bout.

(NEW) Sec. 29-143j-71a. Knockdowns and counting, professional boxing

(a) A knockdown occurs when, as a result of a legal blow or series of legal blows, any part of the boxer's body other than boxer's feet touches the ring floor; the boxer is being held up by the ropes; or the boxer is hanging on, through or over the ring ropes without the ability to protect himself or herself and cannot fall to the floor. In the event of a knockdown, the downed boxer shall be allowed a count of ten in which to fully regain his or her feet unassisted.

(1) When a knockdown occurs, the timekeeper shall at once commence calling off the seconds, indicating the count with an arm motion. The referee shall immediately order the other boxer to the furthest neutral corner and shall thereafter pick up the count

from the timekeeper and indicate it with an arm motion. If the other boxer fails to go to or remain in the neutral corner as directed, the referee may stop the count and resume the count where the referee left off once the other boxer is in compliance.

- (2) The boxer knocked down shall be required to take a mandatory eight count whether or not the boxer has fully regained his or her feet before the eight count has been reached.
- (3) If the boxer knocked down fully regains his or her feet before the count of ten is reached and goes back down immediately without being struck, the referee shall resume the count where he or she left off.
- (4) If the boxer knocked down is unable to fully regain his or her feet and continue the bout at the count of ten, the referee shall stop the bout and declare the other boxer winner by a knockout.
- (5) A boxer shall be considered downed until the boxer fully regains his or her feet from a downed position.
- (6) A boxer shall not be saved by the bell in any round. When any round, including the last round, ends before a boxer who has been knocked down has fully regained his or her feet, the referee's count shall be continued and, if the downed boxer fails to fully regain his or her feet at the count of ten, the boxer shall be considered to have lost the bout by a knockout in the round just concluded.

(b) If a bout is stopped by the referee between rounds, a technical knockout shall be recorded as having taken place in the round just concluded. If the bell for the subsequent round has already sounded and the bout is stopped by the referee, a technical knockout shall be recorded as having taken place in the subsequent round.

(c) If a referee rules that a boxer slipped, fell down or was pushed to the ring floor, the referee shall halt the action, signal a ruling and order the downed boxer to his or her feet immediately in order to restart the bout without delay. Failure to rise may subject the downed boxer to a disqualification by the referee.

(d) A boxer who falls or causes any part of the boxer's body other than the boxer's feet to touch the ring floor and who claims a foul which has not been ruled a foul by the referee may be counted out in the same manner as a knockdown.

(e) A boxer who has been knocked or has fallen out of the ring and onto the floor during a bout shall receive a twenty second count to return to the ring on his or her feet unassisted. If assisted by anyone, the referee may deduct points or disqualify the boxer.

(f) The referee shall not issue a standing eight count to a boxer in any bout.

(g) The referee shall not be required to stop a bout in the event a boxer sustains three knockdowns in any round or during any bout.

(h) The referee may stop a count or bout at any point the referee believes the safety of an injured boxer is at risk.

 - (21) Attacking an opponent on or during the break;
 - (22) Attacking an opponent who is under the care of the referee;
 - (23) Timidity (avoiding contact, or consistently dropping the mouthpiece, or faking an injury);
 - (24) Interference from a mixed martial arts competitor's second;
 - (25) Throwing an opponent out of the ring or caged area;
 - (26) Flagrant disregard of the referee's instructions;
 - (27) Spiking the opponent to the canvas onto the head or neck (pile-driving); and
 - (28) Attacking an opponent after the bell has sounded the end of the round.
- (b) A grounded mixed martial arts competitor is one who has more than the soles of his or her feet on the ground. A referee may determine that a mixed martial arts competitor is grounded if such competitor is not held up by any part of the combat area. The referee may instruct the competitors during the course of the action that the referee is treating the competitor as grounded.
- (c) Foul procedures
- (1) If a foul is committed in a mixed martial arts bout, the referee shall:
 - (A) Call for a time-out;
 - (B) Check the fouled contestant's condition and safety; and
 - (C) Assess the foul to the offending contestant and notify each corner's seconds, judges and the official scorekeeper of any point deduction.
 - (2) If a bottom contestant commits a foul, unless the top contestant is injured, the bout shall continue without a call for a time-out, so as not to jeopardize the top contestant's superior positioning at the time.
 - (A) The referee shall verbally notify the bottom contestant of the foul.
 - (B) When the round is over, the referee shall assess the foul and notify both corners' seconds, the judges and the official scorekeeper of any point deduction.
 - (C) The referee may stop a bout based on the severity of a foul. For a flagrant foul, a contestant shall lose by disqualification.
- (d) Time considerations for fouls
- (1) Low blow foul. A contestant who has been struck with a low blow shall be allowed not more than five minutes to recover from the foul as long as, in the combat area physician's opinion, the contestant can continue on in the bout. If the contestant states that the contestant can continue before the expiration of five minutes, the referee shall as soon as practical restart the bout. If the contestant does not so state

within the five minute time allotment, the bout shall not be restarted and the bout shall end with the outcome determined by the round and time in which the bout was stopped.

- (2) Contestant who is not fouled by low blow but another foul.

(A) If the bout is halted because of an accidental foul, the referee shall determine whether the fouled contestant can continue. If the contestant's chance of winning has not been seriously jeopardized as a result of the foul and if the foul did not involve a concussive impact to the head of the fouled contestant, the referee may order the bout continued after a recuperative interval of not more than five minutes. Immediately after separating the contestants, the referee shall inform the commissioner's authorized representative of such referee's determination that the foul was accidental.

(B) If a contestant is fouled by a blow that the referee deems illegal, the referee shall halt the action and call for a time-out. The referee may take the fouled contestant to the combat area physician and have the physician examine the contestant as to such contestant's ability to continue the bout. The physician shall have not more than five minutes to make the determination. If the physician determines that the contestant can continue the bout, the referee shall as soon as practical restart the bout.

(C) The fouled contestant is not guaranteed five minutes of recovery time. If a fouled contestant is deemed not fit to continue by the referee or combat area physician, the referee shall immediately stop the bout. If the contestant is deemed fit to continue by the referee or combat area physician and some of the five minute recovery time is still remaining, the contestant shall not use the remaining time. If the referee halts the bout and employs the use of the combat area physician, the physician's examination shall not be more than five minutes. If five minutes is exceeded, the bout shall not be re-started and shall end.

(e) Scoring the foul to be performed by the official. Fouls may result in a point being deducted by the official scorekeeper from the offending contestant's score. The scorekeeper shall be responsible for calculating the true score after factoring in the point deduction.

(f) Only a referee may assess a foul. If the referee does not call the foul, judges shall not make that assessment on their own and shall not factor such into their scoring calculations.

(g) Scoring of incomplete rounds. There shall be scoring of an incomplete round. If the referee penalizes either contestant, then the appropriate points shall be deducted when the scorekeeper calculates the final score for the partial round.

(h) Injuries sustained by fouls

(1) If an injury sustained during a bout as a result of an intentional foul is severe enough for the referee to stop a bout, the contestant causing the injury loses by disqualification.

(2) If an injury is sustained during a bout as a result of an intentional foul and the bout continues, the referee shall notify the scorekeeper to automatically deduct two points from the contestant who committed the foul.

(3) If an injury sustained during a bout as a result of an intentional foul causes the injured contestant to be unable to continue at a subsequent point in the bout, the injured contestant shall win by technical decision, if the injured contestant is ahead on the score cards. If the injured contestant is even or behind on the score cards at the time of stoppage, the outcome of the bout shall be declared a technical draw.

(4) If a contestant injures himself or herself while attempting to foul an opponent, the referee shall not take any action in the injured contestant's favor, and the injury shall be treated in the same manner as an injury produced by a fair blow.

(5) If an injury sustained during competition as a result of an accidental foul is severe enough for the referee to stop the bout immediately, the bout shall result in a no-contest if stopped before two rounds have been completed in a three round bout.

(6) If an injury sustained during competition as a result of an accidental foul is severe enough for the referee to stop the bout immediately, the bout shall result in a

technical decision awarded to the contestant who is ahead on the score cards at the time the bout is stopped when the bout is stopped after two rounds of a three round bout.

- (7) Forfeit

When a contestant fails to begin a bout or prematurely ends the bout for reasons other than injury or by indicating a tap out.
- (8) Technical Draw

When an injury sustained during a bout as a result of an intentional foul results in the injured contestant being unable to continue and the injured contestant is even or behind on the score cards at the time the bout is stopped; or, in a double knockout when the referee stops a bout at any stage if the referee determines that both contestants are in such a condition that to continue might subject the contestants to serious injury.
- (9) Technical Decision

When the bout is prematurely ended due to injury and a contestant is leading on the score cards.
- (10) No Contest

When a contest is prematurely ended due to accidental injury and a sufficient number of rounds have not been completed to render a decision via the score cards.
