**NDDB DETERMINATION NUMBER:** 202101409

**Project:** BATTERSON PARK WATER MAIN EXTENSION (2300 linear feet), BATTERSON PARK RD, FROM HAMILTON WAY TO 2 MILE RD, FARMINGTON, CT

**Expiration:** February 9, 2023

I have reviewed Natural Diversity Database (NDDB) maps and files regarding this project. I do not anticipate negative impacts to State-listed species (RCSA Sec. 26-306) resulting from your proposed activity at the site. **This determination is good for 2 years.**

Natural Diversity Database information includes all information regarding critical biological resources available to us at the time of the request. This information is a compilation of data collected over the years by the Department of Energy and Environmental Protection's Natural History Survey and cooperating units of DEEP, private conservation groups and the scientific community. This information is not necessarily the result of comprehensive or site-specific field investigations. Consultations with the Database should not be substitutes for on-site surveys required for environmental assessments. Current research projects and new contributors continue to identify additional populations of species and locations of habitats of concern, as well as, enhance existing data. Such new information is incorporated into the Database as it becomes available. The result of this review does not preclude the possibility that listed species may be encountered on site and that additional action may be necessary to remain in compliance with certain state permits.

Please contact me if you have further questions at [shannon.kearney@ct.gov](mailto:shannon.kearney@ct.gov) . Thank you for consulting the Natural Diversity Database.

Sincerely,

/s/ Shannon B. Kearney
