Re: Post-Scoping Notice for Roraback Pond Dam removal in Harwinton

Attached please find the Environmental Checklist for the above reference project. Scoping for the project began on February 6, 2018 and ended on March 6, 2018.

The Department of Energy and Environmental Protection received no comments.

Since no questions or comments were received and with DEEP's environmental assessment, an Environmental Impact Evaluation is not warranted for this project. Should you have any questions, please contact me at 860-424-3892.
