I, Andrew N Mais, Commissioner of the State of Connecticut, having read the record, do hereby adopt the findings and recommendations of Danny K. Albert, Hearing Officer in the above matter and issue the following order, to wit:

Transamerica Premier Life Insurance Company's rate increase request for its group Standardized Medicare supplement insurance policy forms MS4000GPM-A (Plan A), MS4000GPM-B (Plan B), MS4000GPM-C (Plan C), MS4000GPM-D (Plan D), MS4000GPM-E (Plan E), MS4000GPM-F (Plan F), MS4000GPM-G (Plan G), MS4000GPM-I (Plan I), MS4000GPM-IND (Plan I w/o Rx), MS4000GPM-J (Plan J) and MS4000GPM-JND (Plan J w/o Rx) is disapproved as submitted.

Even though the recent experience has been unfavorable, the nationwide inception-to-date loss ratio of 73.3% is still below the 75% minimum statutory loss ratio requirement for group Medicare supplement business in Connecticut. Furthermore, the company's nationwide inception-to-date loss ratio of 73.3% is consistent with the company's weighted minimum loss ratio of 73.2%, which takes into account the 65% and 75% loss ratio requirements of various states. In addition, the actual experience is below the expected experience with an actual-to-expected ratio of .917.

Docket No. LH 19-47

PROPOSED FINAL DECISION

I. INTRODUCTION

The Insurance Commissioner of the State of Connecticut is empowered to review rates charged for individual and group Medicare supplement policies sold to any resident of this State who is eligible for Medicare.

After due notice, a hearing was held at the Insurance Department in Hartford, CT on Thursday, June 6, 2019, to consider whether or not the rate increase requested by Transamerica Premier Life Insurance Company on its Medicare supplement insurance business should be approved.

No members from the general public attended the hearing.

No company representatives from Transamerica Premier Life Insurance Company attended the hearing.

The hearing was conducted in accordance with the requirements of Section 38a-474, Connecticut General Statutes, the Uniform Administrative Procedures Act, Chapter 54 of Section 38a-8-1 et seq. of the Regulations of Connecticut State Agencies.

A Medicare supplement policy is a private health insurance policy sold on an individual or group basis, which provides benefits that are additional to the benefits provided by Medicare.

Effective December 1, 2005, Connecticut amended its program of standardized Medicare supplement policies in accordance with Section 38a-496a of the Connecticut General Statutes, and Sections 38a-495a-1 through 38a-495a-21 of the Regulations of Connecticut Agencies.

Effective January 1, 2006, in accordance with Section 38a-495c of the Connecticut General Statutes (as amended by Public Act 05-20) premiums for all Medicare supplement policies in the state must use community rating.

The statute provides that coverage under Plans A through N may not be denied on the basis of age, gender, previous claims history or the medical condition of any covered person. Insurers may exclude benefits for losses incurred within six months from the effective date of coverage based on a pre-existing condition.

Effective October 1, 1998, carriers that offer Plan B or Plan C must make these plans as well as Plan A, available to all persons eligible for Medicare by reason of disability.

Insurers must also make the necessary arrangements to receive notice of all claims paid by Medicare for their insureds so that supplement benefits can be computed and paid without requiring insureds to file claim forms for such benefits. This process of direct notice and automatic claims payment is commonly referred to as "piggybacking" or "crossover".

Sections 38a-495 and 38a-522 of the Connecticut General Statutes, and Section 38a-495a-10 of the Regulations of Connecticut Agencies, state that individual and group Medicare supplement policies must have anticipated loss ratios of 65% and 75%, respectively. Under Sections 38a-495-7 and 38a-495a-10 of the Regulations of Connecticut Agencies, filings for rate increases must demonstrate that actual and expected losses in relation to premiums meet these standards, and anticipated loss ratios for the entire future period for which the requested premiums are calculated to provide coverage must be expected to equal or exceed the appropriate loss ratio standard.

Section 38a-473 of the Connecticut General Statutes provides that no insurer may incorporate in its rates for Medicare supplement policies factors for expenses that exceed 150% of the average expense ratio for that insurer's entire written premium for all lines of health insurance for the previous calendar year.
