## ***Special Announcement: CTsource Goes Live August 3, 2020***

The State of Connecticut's new CTsource Bid Board and Contract Board will be here Monday, August 3, 2020!

CTsource replaces the procurement and contracting functions that DAS Procurement and DAS Construction Services previously performed in BizNet, while offering improved and added features as well. DAS Procurement and Construction Services will now be able to create, post, manage and award solicitations in CTsource. Additionally, suppliers will be able to register, view and respond to solicitation opportunities within CTsource.

Active contracts administered by DAS have been migrated and are available for the public to search and view on the CTsource Contract Board.

More information is available online at <https://portal.ct.gov/das/ctsource/ctsource>

### **What comes next:**

Biznet and CTsource will run simultaneously until all organizations are live on the new CTsource.

All CTsource features will be available for use by other state agencies, municipalities, quasi-public and not-for-profits when fully implemented. Contracts and solicitations with the entities mentioned above will remain on BizNet and be migrated at a later date.

In addition, the Prequalification Program, Supplier Diversity Program and Surplus Program will continue to operate using BizNet at the current time.

Questions can be submitted to: [das.ctsource@ct.gov](mailto:das.ctsource@ct.gov).
