Information you are looking for is separated into convenient sections for easy access.

NEW! An in-depth description of each section is provided at the top of your Personal Status Board.

Personal Status Board (PSB)

This is your Personal Status Board specific to **you** and your applications submitted, unsubmitted and unfinished through the State of Connecticut Online Employment Center (ct.gov/ctstatejobs).

Your Personal Status Board is separated into sections for easy access. Here is a summary of each section:

My Notices: This link opens to a chronological list of all notices and content sent to you.

Master Application Template: This is your template application that you can edit at any time, and use to quickly apply for various job openings within the State of Connecticut. By completing a Master Application, **you are not applying for a job opening.**

Note: Effective October 1, 2021 and in order to comply with Public Act 21-69, the State of Connecticut is no longer asking for resumes during the initial application process. If you uploaded a resume prior to this date on your application, you will be able view that there is an attachment but will not be able to open the attachment for the above cited reasons. Please be aware that this information will not be shared or viewable through our system.

Unsubmitted Applications: This section lists any applications that you have started but have **not yet submitted** to the State. This means that you have not applied to a job opening. Applications cannot be considered until they have been submitted by the deadline. After the deadline, if an application has not been submitted, it will be considered Unfinished and will not be considered. Unfinished Applications appear in a separate section below and will indicate "Not Sent" under the Date Submitted column.

Referral Questionnaires: Referral Questionnaires may be sent to you after you have been placed on a Certified/Candidate List. Please note that a questionnaire may not be sent for every recruitment. Questionnaires are used to learn more about your experiences and have a defined deadline. It is important to note the deadline, as late responses are not accepted. Multiple rounds of questions may be sent to help gather additional information.

Submitted and Unfinished Applications: This section contains your Submitted and Unfinished applications. Unfinished applications are defined as applications not submitted by the deadline. Unfinished applications will not be considered. Click the Job Title to review the application. You can also view your Disposition, Last Notice sent, Certified/Candidate List and Status (for submitted applications only) under this section.
