 - a. Removal of Identifiers. The Data Integration Hub shall release only generic unique identifiers that link data from Participating Agencies, which bear no resemblance to or contain any part of an individual's identifiable data which can be used to distinguish or trace an Individual, in accordance with policies and procedures approved by the Data Governing Board. The Data Integration Hub shall take all due diligence to prevent release of identifiers to the Data Recipient, as defined in state and /or federal law, including but not limited to C.G.S. §§ 4e-70(4), 10-234aa(4), 10a-42h, 31-254, 31-701b(a), and 42-471; 20 C.F.R. § 603; 34 C.F.R. Part 99.
 - b. Cell Suppression Policy. The Data Integration Hub agree that approved projects including data from the Participating Agency in the creation of any dissemination materials (e.g.,

project updates, tables, reports, presentations) must adhere to the cell size suppression stated herein:

- i. No cell (e.g., grouping of individuals, patients, students, clients) with less than 10 observations may be displayed.
- ii. No use of percentages or other mathematical formulas may be used if they result in a cell displaying less than 10 observations.
- iii. Individual level records shall not be published in any form, electronic or printed.
- iv. Reports and analytics must use complementary cell suppression techniques to ensure that cells with fewer than 10 observations cannot be identified by manipulating data in adjacent rows, column or other manipulations of any combination of dissemination materials generated through an approved project. Examples of such data elements include but are not limited to geography, age groupings, race/ethnicity, sex, or birth or death dates.

VI. TRANSFER OF DATA FROM PARTICIPATING AGENCIES AND DATA INTEGRATION HUB TO Operating Group

The Participating Agency will submit to the Data Integration Hub, or otherwise permit the Data Integration Hub staff to electronically access, the data associated with approved data sharing or data linking projects as evidenced by the documents attached to this DSA and required pursuant to the E-MOU and its Appendices. Confidential Data will be transferred electronically to the Data Integration Hub and to the Operating Group only via encrypted files and in accordance with the security requirements outlined in the E-MOU and the State of Connecticut's cybersecurity policies.

VII. DATA INTEGRATION HUB'S RIGHTS TO SHARE/RE-DISTRIBUTE THE DATA

Except as expressly provided in this DSA and the E-MOU, the Data Integration Hub shall not distribute any Data submitted by the Participating Agency without the Participating Agency's written approval.

VIII. RESPONSIBILITIES OF OPERATING GROUP

Prior to any data being transferred from the Data Integration Hub and Participating Agencies to the Data Recipient, the Operating Group shall review the Resultant Data to ensure that no Confidential Information is being provided to the Data Recipient. This review will help ensure that the matching process has removed all Confidential Information.

Additionally, in all respects, the Operating Group shall comply with the provisions of FERPA, 20 C.F.R. 603, C.G.S. § 31-254, and other relevant state and federal laws. For purposes of this DSA, nothing in this DSA may be construed to allow the Operating Group to maintain, use, disclose or share Agency's Data in a manner not allowed by federal law or regulations, including but not limited to FERPA, or by this DSA. This Section VIII. shall survive the termination, cancellation or expiration of this DSA. Further, the Participating Agency designates the Operating Group to serve as an Authorized Representative to

receive and match PII from education records under the audit and evaluation pursuant to FERPA, 20 U.S.C. § 1232g(b)(1)(C), (b)(3) and (b)(5) and 34 C.F.R. §§ 99.31(a)(3) and 99.35, or the studies exception in 20 U.S.C. § 1232g(b)(1)(F) and 34 C.F.R. § 99.31(a)(6).

IX. PROTECTION OF CONFIDENTIAL INFORMATION

All Parties agree to protect against and take all steps to prevent a breach of Confidential Information. The Parties further agree to take all steps required in all applicable federal and State laws and in the written policies of OPM or the Department of Administrative Services concerning the confidentiality of Confidential Information. Such data security steps shall include, but not be limited to the following:

- A. A security policy for employees related to the storage, access and transportation of data containing Confidential Information;
- B. Reasonable restrictions on access to records containing Confidential Information, including access to any locked storage where such records are kept and an auditable electronic system of logging and tracking the viewing and/or accessing of Confidential Information;
- C. A process for reviewing policies and security measures at least annually;
- D. Creating secure access controls to Confidential Information, including but not limited to passwords; and
- E. Encrypting Confidential Information that is stored on laptops, portable devices, and storage media or being transmitted electronically.

In compliance with NIST SP800-171 Rev.2, and in particular, Sections 3.6.1 and 3.6.2, the P20 WIN program follows the incident response basic security requirements and has an established operational incident-handling capability for organizational systems that includes preparation, detection, analysis, containment, recovery, and user response activities and to track, document, and report incidents to designated officials and/or authorities.

In addition, the Parties agree to follow the notice of breach requirements of C.G.S. § 36a-701b(b)(1) which states: "Such notification shall not be required if, after an appropriate investigation, the person reasonably determines that the breach will not likely result in harm to the individuals whose personal information has been acquired or accessed."

The Data Recipient and the Participating Agencies shall notify the Parties and the Connecticut Office of the Attorney General as soon as practical, but no later than twenty-four (24) hours, after they become aware of or suspect that any Confidential Information which the Data Recipient has come to possess, or control has been subject to a Confidential Information Breach.

If a Confidential Information Breach has occurred and the Data Recipient is not a State of Connecticut agency or institution, the Data Recipient shall, within three (3) business days after the notification, present a credit monitoring and protection plan to the Commissioner of Administrative Services, the Parties and the Connecticut Office of the Attorney General, for review and approval. Such credit monitoring or protection plan shall be made available by the Data Recipient at its own cost and expense to all individuals affected by the Confidential Information Breach. Such credit monitoring or protection plan shall include, but is not limited to, reimbursement for the cost of placing and lifting one (1) security freeze per credit file pursuant to C.G.S. § 36a-701a. Such credit monitoring or protection plans shall be approved by the State in accordance with this Section and shall cover a length of time commensurate with the circumstances of the Confidential Information Breach. The Data Recipient's costs and expenses for the credit monitoring and protection plan shall not be recoverable from the Parties, any State of Connecticut entity or any affected individuals.

The Data Recipient shall incorporate the requirements of this Section in all subcontracts requiring each independent contractor party to safeguard Confidential Information in the same manner as provided for in this Section.

If the Confidential Information Breach involves information regulated by the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), nothing in this Section shall supersede in any manner the Data Recipient's obligations pursuant to HIPAA or the provisions of this DSA concerning the obligations of the Data Recipient as a Business Associate of the Participating Agency (as such term is defined in 45 C.F.R. § 160.103).

Each Party agrees that it shall be responsible for losses arising out of (i) its own acts or omissions that result in a Confidential Information Breach or failure to comply with applicable federal and state law regarding the protection of Confidential Information and (ii) its own negligence or misconduct, and each Party shall defend itself against any action or claim brought as a result of such acts under this DSA.

X. DATA SOVEREIGNTY

Sovereignty of all data collected and maintained by the Participating Agency remains with the Participating Agency. The transmission of Participating Agency's data does not change the ownership of the Participating Agency's Data and does not assign any such rights to Data Recipient or any other entity or person. This DSA ONLY controls the use and disclosure of such data to the Data Recipient.

XI. FREEDOM OF INFORMATION ACT REQUESTS

If there is a request to a Party pursuant to the FOIA for data in the possession of the Party which is owned by another Party, such Party shall coordinate with the Party that owns the data to respond to the request. Such coordination shall be initiated within 24 hours, and no later than 48 hours of the receipt of the FOIA request.

XII. USE OF DATA

- A. All Parties to this DSA shall only use data for the authorized data sharing purpose and no other purpose in accordance with applicable federal and state law and the DSA. Each Party shall monitor the use of data by its users, employees, vendors and any other person or entity that receives, sends, or has access to data pursuant to this DSA. Nothing in this DSA may be construed to allow any Party, person or entity to maintain, use, disclose or share data in a manner inconsistent with the terms of this DSA and applicable federal and state laws and regulations.
- B. The Parties agree that they will comply with any operational measures necessary due to changes in applicable law.
- C. The Parties agree that unless permitted or required to share data by applicable federal and/or state law, the Parties shall obtain the appropriate authorization to disclose identifiable data for a particular individual. If a signed consent to share the data is required, the Participating Agency may take steps to obtain the particular individual's consent to release the data. Where the particular individual is a minor, the Participating Agency may take steps to obtain the particular individual's parent or legal guardian consent. If the particular individual has a representative authorized to act on her/his behalf, the Participating Agency shall take steps to obtain the particular individual's representative consent.
 1. Tracking of Authorizations. The Parties agree to track the expiration and/or revocation of the Individuals consent authorization in compliance with the applicable federal and state laws.
 2. Defective authorization. Particular individual's consent authorization is not valid if the document has any of the following defects: (a) the expiration date has passed or the expiration event is known by either Party to have occurred; (b) the authorization has not been completely filled out, with respect to a required element by federal and/or state law; (c) the authorization is known by either Party to have been revoked; (d) the authorization creates a compound authorization or violates the prohibition on conditioning the provision of services or benefits on conditioning authorizations; (e) any material information in an authorization is known by the Participating Agency or the Data Recipient to be false.
 3. Revocations of authorizations. Individuals may revoke a consent authorization provided under this Section at any time for subsequent data sharing, provided that the revocation is given in writing to the Participating Agency, except to the extent that the data has already been shared or actions have taken place in reliance on the prior consent authorization. The confidentiality and privacy policies of the Participating Agency shall govern the particular individual's revocation of consent authorizations.

XIII. FORUM AND CHOICE OF LAW

The Parties deem the DSA to have been made in the City of Hartford, State of Connecticut. All Parties agree that it is fair and reasonable for the validity and construction of this DSA to be, and it shall be governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of law. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. Data Recipient waives any objection which it may now have or will have to the laying of venue of any claims in any forum and further irrevocably submits to such jurisdiction in any such action or proceeding.

XIV. NONDISCRIMINATION

The Parties agree, as required by sections 4a-60 and 4a-60a of the Connecticut General Statutes, not to discriminate against any person on the basis of race, color, religious creed, age, marital status, national origin, ancestry, sex, gender identity or expression, sexual orientation, intellectual disability, mental disability or physical disability, including, but not limited to blindness, unless it is shown by the such Party that disability prevents performance of the work involved. Each Party agrees to comply with all applicable federal and State of Connecticut nondiscrimination and affirmative action laws, including but not limited to section 4a-60 and 4a-60a of the Connecticut General Statutes.

XV. SEVERABILITY

XVIII. NO FURTHER OBLIGATIONS

The Parties do not intend that any agency or partnership relationship be created by this DSA. SECTION 1 – GENERAL INFORMATION (To be completed by data requestor)

1. Application Submission Date: 1/12/2024
2. Project Name: **Connecticut Education and Workforce Training Pathways**
3. Type of Project: Recurring
- 3.a Frequency of request if recurring: Annual
4. Contact information (name / title / organization or entity / email / phone):
Patrick Flaherty / Director of Research / DOL / patrick.flaherty@ct.gov
Scott Gaul / Chief Data Analyst / OPM/ scott.gaul@ct.gov

SECTION 2 – SCOPE OF DATA SHARING PROJECT (To be completed by data requestor with participating agency review)

1. What is the proposed data sharing project?

The Connecticut Office of Workforce Strategy (OWS) is proposing a comprehensive and collaborative data sharing project to analyze the performance and outcomes of the state’s workforce system pursuant to C.G.S § 10-57g(e). This project will use data from Connecticut Department of Labor (CTDOL), Connecticut State Department of Education (CSDE), Connecticut Office of Workforce Strategy (OWS), National Student Clearinghouse (NSC), and Connecticut Technical Education and Career System (CTECS) to analyze education and workforce training performance indicators and outcomes that relate to the education and workforce training pathways of Connecticut residents. The knowledge generated from this project is intended to inform education and workforce training pathways systems and program development to help meet the needs of participants, agencies, employers.

The project will study the following indicators:

1. Enrollment across educational and workforce training programs administered by CTDOL, OWS, CSDE, public and private four-year and two-year higher education institutions and CTECS;
2. Postsecondary outcomes, including but not limited to, program completion, employment status, wage and wage gains, credential/degree attainment, and involvement with public assistance programs;
3. Demographic data to support cross-sectional analyses of outcomes across different variables including but not limited to age, race/ethnicity, sex, geography, etc.;
4. The transitions and movement between programs, including individual education and workforce training pathways, such as individuals that complete an adult education program, continue into a workforce training program, then enroll in a two-year degree program.

Using this data, the project will address the following research questions:

1. What are the wage and employment outcomes of Connecticut workforce training programs?

2. What are the wage and employment outcomes of Connecticut postsecondary, adult education, and technical education programs?
3. What are the common education and workforce training pathways within Connecticut?
4. What are the employment and wage outcomes by career pathway?
5. Which education and workforce training pathways lead to the strongest wage growth?

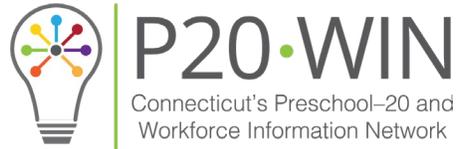

2. What is the purpose of the data sharing project?

The purpose of the proposed project is to build knowledge of Connecticut education and workforce training pathways by expanding upon previous research and utilizing existing data. The project will focus on how individuals move and transition between programs within the workforce development ecosystem by identifying individual education and workforce training pathways. The data sharing project will build upon existing knowledge of program outcomes by including how individuals transition between programs and how these transitions impact wage and employment outcomes. The analysis will provide insights on the relationship between education and workforce training and how to best provide resources and assistance to individuals transitioning between education to workforce training programs.

Analyzing individual education and workforce training pathways within Connecticut's workforce development ecosystem, will build knowledge on how individuals transition between programs, identify common education and workforce training pathways, and highlight education and workforce training pathways outcomes. This analysis will allow OWS, in collaboration with CTDOL, CSDE, and CTECS, to produce a publicly available Education and Workforce Training Pathways dashboard/tool. The analysis will allow OWS, the Governor's Workforce Council (GWC) and providers to gauge the effectiveness of current workforce and education programs as part of the workforce development ecosystem, rather than in isolation.

3. How does the data sharing project further the [vision, purpose](#) and [research agenda](#) of P20WIN? Please explain.

One of the goals of P20 WIN is to "ensure that individuals can successfully navigate...education pathways into the workforce." This project will address this goal by expanding upon the work of previous projects, including Requests for Employment and Wage Outcomes for CT Public and Private Postsecondary Education Programs ([#14, 16](#)) and Multi-year Post-secondary Wage and Employment Outcomes ([#27-31](#)), which analyzed Connecticut's core educational outcomes expanded by various demographic indicators. The proposed project will expand upon this work by analyzing the workforce development ecosystem as an integrated entity with two complementary components – workforce development and education programs. The project will expand upon previous projects by analyzing the entire workforce development ecosystem together, including how individual education and workforce training pathways that may include a combination of education and workforce training programs. The project will examine the efficacy of education and workforce training through traditional wages, employment, and job retention.

SECTION 3 – INDIVIDUALS INVOLVED IN DATA SHARING PROJECT (To be completed by data requestor with participating agency review)

1. Participating Agencies from which data is being requested (Check all that apply): Connecticut Department of Labor (CTDOL) Connecticut State Department of Education (CSDE) Connecticut Technical Education and Career System (CTECS)

SECTION 4 - APPLICABLE CONFIDENTIALITY, PRIVACY AND SECURITY REQUIREMENTS (To be completed by data requestor with participating agency review).

1. What specific data fields and elements are to be queried or linked?¹

See Data Elements Exhibit (Part B)

2. Identify the applicable Federal and State laws and regulations for this data sharing project and specify how each requirement shall be met by this Project. (For example, if requesting education data – explain how this project meets the audit and evaluation exception in FERPA) Please consider consulting the resources [here](#) for review of the state and federal laws in many areas.²

The state and federal government and residents invest heavily in postsecondary education and workforce programs and thus have an interest in understanding whether students completing publicly funded education and workforce programs are entering the workforce, pursuing further education or participating in workforce programs. Connecticut public four-year and two-year higher education programs receive both federal and state support, and this request will evaluate the effectiveness of public postsecondary programs in preparing students for employment in Connecticut. Private non-profit institutions of higher education receive Title IV funding, and results from this analysis will provide information useful for improving education programs and policies across the state. Unemployment compensation wage and benefit information will remain confidential through the measures described in the data sharing agreement.

3. Describe any specific steps required for matching or linking records for this request (Specify fields to use for matching and describe the flow or transfer of data for the request).

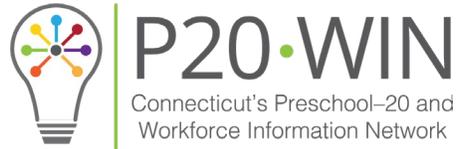

CSDE and CTECS will provide their matching elements to the P20 WIN Data Integration Hub.

The data matching process will follow the P20 WIN Data Matching process.

1. Verification of requested data elements from each of the requested agencies and organizations listed: CSDE, CTECS, National Student Clearinghouse (via SDE), CTDOL

¹ Can be attached as a separate document with requested fields highlighted. The P20 WIN data dictionary is posted here: <https://portal.ct.gov/OPM/P20Win/Request-Data>

² Data requestors will also be expected to sign a Confidentiality and Nondisclosure Agreement before receipt of data, with a template included [here](#) (attachment C).

2. Each participating agency will create a matching file and analytical file. The matching file will be transferred to the P20 WIN Data Integration Hub via SFTP.
3. The P20 WIN Data Integration Hub will match the individuals from each agency using the elements identified in the Data Elements Exhibit (Part B).
4. The P20 WIN Data Integration Hub will create a list of all individuals to be matched with postsecondary records.
5. The National Student Clearinghouse (NSC) will provide postsecondary records to be matched to the participating agency data.
4. The P20 WIN Data Integration Hub will create crosswalk files to join the datasets.
5. Crosswalk files and then analytical data will be transferred via SFTP to a secure computing environment.

4. When will the data be destroyed for the project?

All unit record data resulting from the query to the system will be destroyed by the research team within 12 months of the date of the receipt of the analytical data sets by the researchers.

5. If needed, describe any steps for de-identification and anonymization,³ including how the requestor will mitigate the risk of re-identification of individuals

The data will be stored in a secure computing enclave, with limited, role-based access for authorized users. Agencies will not access any identifiers directly for the analysis and will only access records with identifiers removed. Results will only be shared beyond authorized users after disclosure review by the participating agencies in the project, to ensure consistency with the cell suppression requirements documented in the data sharing agreement.

6. Describe how the data is to be transferred to the Data Recipient.

The participating agencies will use Axway Secure Transport, as managed by Department of Labor, for all file transfers related to this request. The data will be transferred to and stored in a secure computing enclave for analysis. Analysts at OPM and CTDOL will have access to unit record data in the secure computing enclave. OWS will later have access to aggregate files, prepared by the OPM and DOL analysts, in the secure computing enclave.

³ Definitions are in the P20 WIN enterprise memorandum of understanding (E-MOU), maintained online by OPM, here: <https://portal.ct.gov/OPM/P20Win/Governance>

7. Describe the steps to safeguard any data received for this project. How will the requestor adhere to the data security controls described in the P20 WIN E-MOU.⁴

Data will be stored in a secure computing enclave, with limited role-based access for the authorized users identified in the agreement.

SECTION 5 – PLANS FOR DATA ANALYSIS AND REPORTING FINDINGS (To be completed by data requestor)

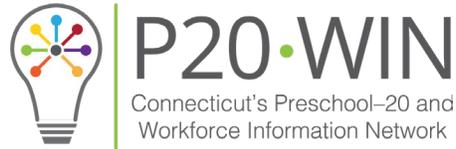

1. What are the plans for data analysis for the project?

The project will include a descriptive analysis of the wage and employment outcomes of postsecondary students, workforce training participants, adult education participants, and technical education participants between 2012 and 2023. Postsecondary students will include all students enrolled in degree programs at Connecticut public and private four-year and two-year higher education institutions. Workforce training participants will include all participants enrolled in Workforce Innovation and Opportunity Act (WIOA), Wagner-Peyser, Jobs for Veterans' State Grants (JVSG), Trade Adjustment Assistance (TAA), Jobs First Employment Services (JFES), Best Chance, and Registered Apprenticeship.

To answer research questions 3,4, and 5, the project will include an analysis of the individual education and workforce training pathways of participants. This analysis will be used to determine the common education and workforce training pathways within Connecticut's workforce. For this analysis we will begin by identifying which individuals from the study participated in at least two programs from the programs defined above during the study period (2012 to 2023). The analysis will begin by first identifying which programs are the first steps in each individual career pathway. We will then calculate the subsequent wage growth from exit quarter to most recent quarter and to the starting quarter of the next step in their pathway. We will continue this process for each subsequent step in each participant's career pathway, i.e., we will calculate the wage growth that can be attributed to each step/transition. This will allow us to indicate wage growth between steps and after steps. We will use the identified individual education and workforce training pathways to determine and aggregate individuals across common education and workforce training pathways. When aggregating data to show outcomes of common education and workforce training pathways we will show how time between steps impacts wage growth, i.e., how the length of employment/experience between steps impacts future wages. Common education and workforce training pathways will be disaggregated by race/ethnicity and gender, disability, veteran status, and additionally identified underserved communities in Connecticut.

Finally, this analysis will be used to create the Connecticut Education and Workforce Training Pathways dashboard/tool which will assist Connecticut residents in identifying education and workforce training opportunities and pathways. The tool will show the common education and workforce training pathways taken by Connecticut residents, including the resulting industry and average wage growth.

⁴ Data security controls are described in the P20 WIN enterprise memorandum of understanding (E-MOU), maintained online by OPM, here: <https://portal.ct.gov/OPM/P20Win/Governance>

Individuals will be able to identify programs they are qualified for by filtering by skillset, level of experience, and level of education. The tool will also include the initial descriptive analysis of wage and employment outcomes, disaggregated by race, ethnicity, gender, disability, veteran status, and additionally identified underserved communities in Connecticut. This will enable policymakers and practitioners to gain a better understanding of what programs are currently being offered, who is enrolling in those programs, and how those individuals are benefitting from the services being provided in those programs.

2. What is the planned process for dissemination or publication of results before release?

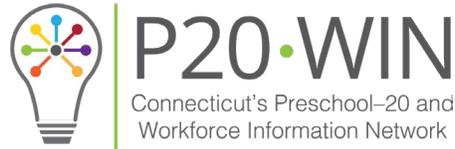

We will communicate our findings with other state agencies and the public through an initial report. In the future, there will be an interactive dashboard/tool that can be accessed publicly. We will publish our findings through the OWS website and provide avenues for feedback and interaction. We intend to engage with both agencies and the public through subsequent webinars and forums to discuss the progress of our overall work and avenues for improvement or development.

Additionally, the data analysis will be shared with the Governor's Workforce Council and provide information on the status of workforce development in the state to drive discussion between public and private sector stakeholders. We will communicate our findings through the quarterly convenings of the Governor's Workforce Council. This analysis will be used to drive conversations and strategy within various working groups in the GWC which will subsequently inform overall GWC strategy.

3. How will this project use data as a public asset to advance social good, making best use of public resources? What steps will be taken to ensure that one's racial identity does not influence how one fares in society? This includes the creation of racially-just policies, practices, attitudes, and cultural messages, and the elimination of structures that reinforce differential experiences and outcomes by race.

Drive equitable access to workforce programs: The descriptive analysis from this study will inform our understanding of outcomes in the workforce development ecosystem among traditionally underserved demographic groups and individuals. It will also allow us to learn about groups that we may not traditionally associate with having high barriers to success.

Drive equitable workforce development programs that have appropriate and relevant wraparound services: Understanding which groups and programs are underperforming during education and training will inform, based on literature and existing best practices elsewhere, strategy for robust social service support that are conducive to improved and sustained outcomes. If we do not invest these resources, policymakers and practitioners will be unable to access accurate, up-to-date data on the outcomes for workforce and education programs, and the ways in which individuals co-enroll or transition between programs. Also, residents will not be able to access information and data to inform their decision making when exploring education and workforce training opportunities.

 - 4) Only transmit, via electronic mail, Data Sets that have been appropriately de-identified according to applicable privacy, confidentiality, and security requirements, as outlined in the Data Sharing Agreement. No protected Data will be transmitted via electronic mail.
 - 5) Take all necessary steps to ensure that any protected identifiable information or other identifiable or confidential Data in the possession or control of the Data Integration Hub are destroyed in a timely fashion as provided in the Data Sharing Agreement; and

- 6) Abide by policies and procedures recommended by the Data Governing Board and adopted by the Executive Board.

VIII. DUTIES AND RESPONSIBILITIES OF PARTICIPATING AGENCIES

Each Participating Agency shall be responsible for the Data that reside in its respective system(s). This E-MOU shall only apply to Data that is shared with the Data Integration Hub through P20 WIN Data Sharing requests at the unit and aggregate levels. Notwithstanding any provision of this E-MOU or any Appendix hereto, each Participating Agency reserves the right to refuse to share or disclose any Data Elements or decline the Data Sharing request in its entirety, in its sole discretion, with documentation as to the reason for the refusal. Participating Agency agrees to:

- A. Execute this E-MOU. In doing so, the Participating Agency affirms that it has the requisite authority to enter and perform this E-MOU. The Participating Agency Executive or designee shall be the representative authorized to sign this E-MOU on behalf of the Participating Agency.
- B. Serve on the Executive and Data Governing Boards as described in this E-MOU.
- C. Comply with the provisions of this E-MOU and its Appendices.
- D. Participate in data governance processes in accord with this E-MOU and its Appendices.
- E. Prior to agreeing to provide its Data for a Data Sharing Request, verify and confirm that the Data required for the request is available and may be shared for the requested purpose.
- F. Abide by all policies and procedures recommended by the Data Governing Board and adopted by the Executive Board.

IX. DATA SOVEREIGNTY

Sovereignty of all data collected and maintained by each Participating Agency remains with the Participating Agency. The transmission of Participating Agencies' Data via the Data Integration Hub and subsequent data matching and disclosure of any Resultant Data pursuant to this E-MOU via a Data Sharing Agreement (DSA) do not change the ownership of the Participating Agency's Data and do not additionally assign any such rights to any other Party, entity or person. The DSA between the Participating Agencies, the Data Integration Hub and the Data Recipient ONLY controls the use and disclosure of such Data to the Data Recipient, and where approved by an Institutional Review Board (IRB).

X. FREEDOM OF INFORMATION ACT REQUESTS

If there is a request to a Party pursuant to the Freedom of Information Act (“FOIA”) for Data in the possession of the Party which is owned by another Party, such Party shall coordinate with the Party that owns the Data to respond to the request. Such coordination shall be initiated within 24 hours, and no later than 48 hours of the receipt of the FOIA request.

XI. DATA SHARING MANAGEMENT

This Section describes the process for Data Sharing from more than one Participating Agency. If Data is requested from only one Participating Agency, this process and documentation does not apply and the Data Recipient may directly contact the specific Participating Agency.

- A. With support from the Operating Group, the Participating Agencies providing Data and the Data Recipient shall identify details specifying the intended purpose, data content, security expectations, availability and dependency requirements in the DSA and the Data Sharing Request Form (Exhibit A to the Data Sharing Agreement) which shall address, including but not limited to the following:
 1. Scope of Project
 - a. What is the proposed Data Sharing project?
 - b. What is the purpose of the Data Sharing Request (and that it meets all Federal and State law requirements for Data Sharing)?
 - c. Does it further the vision, purpose and research agenda of the P20 WIN?
 - d. What specific data fields and elements are to be queried/linked?
 - e. When will the Data Recipient destroy or return the Resultant Data?
 2. Entities Involved
 - a. Who are the Participating Agencies sharing the data?
 - b. What is the Data Requesting entity?
 - c. Who are the Participating Agency contacts?
 - d. Who are the Data Requesting contacts?
 3. Identify any applicable federal and state laws and regulations to determine whether all confidentiality/privacy requirements are being met.
 4. Document the plans for data analysis and reporting of findings from the Resultant Data.
 5. Data Recipient shall provide information whether the Data Recipient is able to meet the Data security requirements and conduct the Data analysis in a secure environment.
 6. Determine the Participating Agencies’ confidentiality and privacy requirements, permissions and limitations for Data Recipient’s dissemination or publication of the results before release beyond the Data Recipient(s) named in the DSA.
 7. Signed approval from Participating Agencies.
- B. The Data Recipient shall submit the completed Data Sharing Request Form (Exhibit A to the Data Sharing Agreement) to the Operating Group for completeness review, including for support from the Participating Agencies. The Operating Group shall prepare the Data Sharing Request

Form for review by the Data Governing Board representatives from the Participating Agencies whose data are requested in the Data Sharing Request Form. The Data Governing Board representatives from the Participating Agencies whose Data are requested in the Data Sharing Request shall make one of the following decisions:

1. Approval: Data Recipient(s) receive notification of the decision, and that each Participating Agency has verified the availability of the requested Data and agrees to share the Data for the specific purpose of the request.
2. Conditional Approval: Data Recipient (s) shall receive notification of the decision, subject to Data Governing Board's request and review of additional information. The Participating Agencies and the Data Recipient shall be allowed to provide additional information, and/or address the comments or concerns of the Data Governing Board and resubmit the request.
3. Disapproval: Data Recipient (s) shall receive notification of the decision and the supporting reasons for the decision not to share or match Data based on the given Data Sharing Request Form.

The Participating Agencies' representatives do not have to meet in person and the Participating Agencies' votes may be virtual, including but not limited to telephonic. The Operating Group shall be responsible for notifying the Data Recipient of the applicable decision.

XII. METHODOLOGY

The Participating Agencies in the Data Sharing Request shall, in accordance with the DSA, provide the Data Integration Hub with the requested Data files and will describe the Data flow process in the DSA. Each Participating Agency input file shall contain a generic identifier for each Individual record. The generic unique identifier, used solely for the Data Sharing process using the Data Integration Hub, will bear no resemblance to or contain any part of an individual's identifiable data.

The Operating Group shall coordinate and schedule the Transmission of Data from Participating Agencies with Data that was approved to be a part of the Data request. Each Participating Agency with Data that was approved to be a part of the Data request and who approved the use of their Data will produce the input Data sets required to satisfy the request:

- A. The file used for data matching will be structured so that there is one unique record per Individual represented. Data that may have been pulled from a dimensional data source will be flattened to produce an input file in this format.
- B. Participating Agency shall structure the file with a unique generic ID to each unique record in the file that identifies the Participating Agency which is providing the Data.

Each Participating Agency shall utilize the Specifications under this E-MOU when responding to a P20WIN Data Sharing Request.

The Participating Agencies may jointly advise the revision of these Specifications, and the Data Governing Board may recommend to the Executive Board the adoption of amendments to, or repeal and replacement of, the Specifications for integrating data for matching services at any time in accordance with Appendix 4 of this E-MOU.

Upon receipt of all required input Data sets, the Data Integration Hub shall utilize data matching software and/or methods approved by the Data Governing Board to integrate the Data sets.

XIII. USE OF DATA

- A. All Parties to this E-MOU, and specifically, the Data Integration Hub, shall only use Data for the authorized Data Sharing Request purpose and no other purpose in accordance with applicable federal and state law, this E-MOU and the Data Sharing Agreement. Each Party shall monitor the use of Data by its Users, employees, vendors and any other person or entity that receives, sends, or has access to Data pursuant to this E-MOU. Nothing in this E-MOU may be construed to allow any Party, person or entity to maintain, use, disclose or share Data in a manner inconsistent with the terms of this E-MOU or its Appendices and applicable federal and state laws and regulations.
- B. The Parties agree that they will comply with any operational measures necessary due to changes in applicable law.
- C. Each Participating Agency agrees that unless permitted or required to share Data by applicable federal and/or state law, it may obtain the appropriate authorization to disclose the Data for the Individual, pursuant to the terms and conditions of this E-MOU and its Appendices. If a signed consent to share the Data is required, the Participating Agency may take steps to obtain the Individual's consent to release the Data. Where the Individual is a minor, the Participating Agency may take steps to obtain the Individual's parent or legal guardian consent. If the Individual has a representative authorized to act on her/his behalf, the Participating Agency may take steps to obtain the Individual's representative consent.
 - 1. Tracking of Authorizations. The Participating Agencies agree to track the expiration and/or revocation of the Individuals consent authorization in compliance with the applicable federal and state laws.
 - 2. Defective authorization. Individuals consent authorization is not valid if the document has any of the following defects: (a) the expiration date has passed or the expiration event is known by the Participating Agency to have occurred; (b) the authorization has not been completely filled out, with respect to a required element by federal and/or state law; (c) the authorization is known by the Participating Agency to have been revoked; (d) the authorization creates a compound authorization or violates the prohibition on conditioning the provision of services or benefits on conditioning authorizations; (e) any material information in an authorization is known by the Participating Agency to be false.

3. Revocations of authorizations. Individuals may revoke a consent authorization provided under this section at any time for subsequent Data Sharing requests, provided that the revocation is given in writing to the Participating Agency, except to the extent that the Data has already been shared or actions have taken place in reliance on the prior consent authorization. The confidentiality and privacy policies of each Participating Agency shall govern the Individuals revocation of consent authorizations.

XIV. P20 WIN DATA SHARING SYSTEM ACCESS POLICIES

- A. Each Participating Agency acknowledges that Participating Agency access and disclosure policies may differ among them as a result of differing applicable laws and business practices. Each Participating Agency agrees to be responsible for encrypting data in transit and at rest, using current industry standard algorithms agreed on by the Participating Agencies involved and the Data Integration Hub before transmission occurs based on the application of its Participating Agency Access and Disclosure policies to the requested data. Each Participating Agency shall comply with applicable federal and state law, this E-MOU, and all applicable Specifications in Transmittal of Data.
- B. Each Participating Agency agrees to employ an approved credentialing service, through which the Participating Agency, or its designee, uses the Digital Credentials to verify the identity of each User prior to enabling such user to Transmit Data. The “approved credentialing service” must meet state, federal and industry standards. It must also be commonly used, verifiable, and known as being used in existing data exchange systems.

XV. ENTERPRISE SECURITY SPECIFICATIONS

- A. Each Participating Agency agrees:
 1. To implement and maintain a security program that, at a minimum, includes all controls identified in NIST Special Publication 800-171. Furthermore, each Participating Agency shall be responsible for maintaining a secure environment compliant with state policies, standards and guidelines, and other applicable federal and state law that supports the Transmission of Data in compliance with the Specifications.
 2. To comply with additional safeguards recommended by the Data Governing Board and/or required by the Executive Board, including but not limited to encryption of Data in transit and at rest using current industry standard algorithms agreed on by the Parties involved before transmission occurs.
 3. As appropriate under applicable federal and state law, have written privacy and security policies, including Access and Disclosure policies.
 4. To the extent permissible under applicable federal and state law, comply with Specifications that define expectations with respect to data privacy and security standards in this E-MOU.

- B. The Data Integration Hub agrees:
1. To implement and maintain a security program that, at a minimum, includes all controls identified in NIST Special Publication 800-171.
 2. That each Participating Agency shall, through its agents, employees, and independent contractors have the ability to audit the processes at the Data Integration Hub related to this E-MOU for Data security purposes: to clarify, the Participating Agency has the ability to monitor the access to and use of the Data Integration Hub, but not the records or the Data being provided
 3. That all Data from each Participating Agency, in the possession of the Data Integration Hub, shall be encrypted at rest (storage) and in motion (Transmittal) including all Participating Agency Data sent to the Data Recipient.
 4. To develop procedures to notify Participating Agencies when a breach or suspected breach of the Data Integration Hub has occurred.
- C. In accordance with applicable federal and state law, each Party shall be responsible for procuring and assuring that its User(s) have or have access to equipment and software necessary to fulfill its responsibilities under this E-MOU.
- D. Security Standards for Transmission of Data and for Data at Rest. The Transmission of Data shall be encrypted to appropriate framework, using current industry standard algorithms agreed on by the Parties involved. Electronic signatures shall be used in the Data Transmission and Data at rest to identify the source and destination.
- E. Exception Process. A Participating Agency which does not fully meet the standards set forth in this Section XV may submit a proposed plan to share Data to the Data Governing Board during the process of coming into full compliance with the stated requirements.
- F. Applicability of Privacy and Security Regulations. To maintain the privacy, confidentiality, and security of the Data, and in determining Data security (including but not limited to where the Data shall be maintained and who has access to the Data), each Party shall comply with applicable federal and state law and this E-MOU and the data privacy and security standards.
- G. Safeguards. Each Party shall use reasonable and appropriate administrative, physical and technical safeguards in conformity with NIST SP 800-171 requirements.
- H. Breach Notification. If a breach occurs while the Data is in the possession of a Party, such Party shall comply with the applicable federal and state law requirements regarding reporting of a breach or a potential breach, including but not limited to the Attorney General's Data Security Department, C.G.S. § 36a-701b, that affect Data covered under a Data Sharing Agreement (DSA) and comply with the requirements contained in Appendix 2 hereto.

- I. Conflict of Obligations. This Section shall not be deemed to supersede a Participating Agency's obligations (if any) under relevant security incident, breach notification or confidentiality provisions of applicable federal and law.
- J. Conflict of Compliance. Compliance with this Section shall not relieve any Party of any security incident or breach reporting requirements under applicable federal and state law including, but not limited to, those related to Individuals.

XVI. ONBOARDING NEW PARTICIPATING AGENCIES, AND SUSPENSION AND REINSTATEMENT OF PARTICIPATING AGENCIES

Onboarding of new entities for data sharing and suspending and reinstating Participating Agencies shall be in accordance with Appendix 1.

XVII. AUDITS

The Operating Group will facilitate any required confidentiality, privacy or security audits related to the P20 WIN Data Sharing process that are requested by any of the Participating Agencies. To perform this duty, the Operating Group shall:

- A. Facilitate any Participating Agency to audit or assess the Data Integration Hub's data sharing confidentiality, privacy or security protocols and practices to ensure compliance with applicable laws and this E-MOU.
- B. Ensure maintenance of logs to track a) Data files received; b) matches conducted; c) Data files maintained; and d) the output files sent to approved Data Recipient(s). Logged information shall specifically document when Data was transferred, who received and sent Data, Data Elements involved, Data Sharing Request to which the Transferred Data pertain, dates of Data destruction and other relevant information.
- C. Regularly monitor Users at the Data Integration Hub with access to Data to determine whether the job responsibilities of those persons continue to require access to Participating Agencies' Data. The Data Integration Hub shall immediately facilitate the removal of access for any person who is determined to no longer require such access.

XVIII. MISCELLANEOUS PROVISIONS

- A. Amendments. An amendment of the E-MOU and its Appendices and the DSA and its Exhibits may be recommended by the Data Governing Board to the Executive Board in accordance with Appendix 3 and Appendix 4. To be considered, all members of the Executive Board must be present (including telephonically or virtually) for the vote. Revisions to this E-MOU must be approved by the Executive Board by a unanimous vote of the Executive Board.

After such vote, if a member participated by telephonically or virtually, the Operating Group shall follow up with such member and capture their vote for inclusion. A formal written amendment shall memorialize the approved revisions to this E-MOU, and shall not be effective until executed by all Parties to the E-MOU.

This E-MOU shall remain in full force and effect for the entire term of the E-MOU period stated herein, unless terminated by any Participating Agency on behalf of itself as a Party to the E-MOU with thirty (30) days written notice to the Operating Group. If this E-MOU is found by a court or tribunal of competent jurisdiction to be in conflict with any federal or state laws or with any rule, regulation, or guideline, it shall be null and void to the extent of such conflict. Notwithstanding this termination provision, if any Party to this E-MOU is found to have breached the confidentiality provisions contained herein, the remaining Parties may immediately terminate their participation without notice.

APPENDIX 1

Procedures for Adding a New Participating Agency, Suspending a Participating Agency and Reinstating of a Participating Agency

1. Adding A New Participating Agency

When an Applicant requests to join this E-MOU, the request shall be directed by the Executive Board to the Operating Group to review the authority of the Applicant to access and share the data and potential security, privacy, confidentiality or conflict of interest concerns that might be raised if the Applicant participates in the Data Sharing process. If the Operating Group determines if there are any such concerns, the Operating Group will work with the Applicant to resolve the issues. If no concerns are identified, the Operating Group will recommend to the Executive Board adding the Applicant as a Participating Agency. If the Executive Board, by a unanimous vote, accepts the recommendation of the Operating Group, the Applicant will be considered a Participating Agency. The E-MOU will be amended to add the Applicant as a Participating Agency and all Parties shall sign the revised E-MOU.

2. Suspension of a Participating Agency

A. Voluntarily by the Participating Agency

Participating Agencies or the Data Integration Hub may voluntarily cease Data Sharing with other Parties. Such Participating Agency or Data Integration Hub agrees to notify the Operating Group of the interruption prior to the interruption, if planned, or as soon as reasonably practicable after the interruption begins, if unplanned. The Operating Group shall notify the Executive Board, the Data Governing Board and all other Participating Agencies. In addition, such Participating Agency agrees to be responsible for taking all technical actions necessary to reinstate Data Sharing with other Parties and during this cessation to continue to comply with the terms and conditions of the E-MOU.

B. INVOLUNTARILY – WITH CAUSE

When a complaint, report, or other information indicates that a suspension may be warranted, the Data Governing Board may initiate an investigation of complaint, report, or other information. The Data Governing Board shall immediately notify the Party(ies) in question of the investigation.

When the complaint, report, or other information indicates that a suspension must be implemented immediately and, in the judgment of the Data Governing Board, it is not practical to delay the suspension while the Executive Board is convened, the Data Governing Board shall immediately:

- a. Notify the Executive Board of the recommendation and request that the Executive Board take all actions necessary to carry out the suspension, including, but not limited to, suspension of the Participating Agency's access to Data Sharing service;
- b. Call a special meeting of the Executive Board to evaluate the recommendation of suspension; and
- c. If the Executive Board agrees with the recommendation, notify the suspended Participating Agency of the suspension.

The Data Governing Board shall meet as soon as practicable, but no later than five (5) business days after the receipt of the complaint by the Data Governing Board, to evaluate the suspension action by the Executive Board. The suspension shall remain in effect until the Data Governing Board meets to evaluate the suspension and makes a recommendation to the Executive Board to affirm, modify, or terminate the suspension.

If a member of the Data Governing Board is the designee of the Participating Agency identified by the complaint, the designee will recuse herself/himself from the investigation of the complaint.

If a complaint has not been resolved by the Data Governing Board within thirty (30) days after it was first received (or such longer period as agreed to in writing by the Participating Agency who is a party to the complaint), then the complaint shall be escalated to the Executive Board for resolution. If the Executive Board (if a member of the Executive Board is the designee of the Participating Agency identified by the complaint, the designee will recuse herself/himself from the discussion and vote) cannot decide unanimously on a resolution of the complaint, then the complaint is dismissed with no action taken against the Participating Agency.

If, through the investigation, the Data Governing Board recommends that a Participating Agency is (i) creating an immediate threat, or (ii) will cause irreparable harm to another party, including but not limited to, another Participating Agency, a User, or an individual whose data are shared pursuant to this E-MOU, the Data Governing Board may recommend to the Executive Board to suspend a Participating Agency and that such suspension be tailored to address the threat posed by the Participating Agency. If the Executive Board concurs in the recommendation, the Executive Board shall order the Data Governing Board to take all technical actions necessary to carry out the suspension including, but not limited to, suspension of the Participating Agency's access to the Data Sharing services. As soon as reasonably practicable after suspending a Participating Agency, but in no case longer than twelve (12) business hours, the Data Governing Board shall provide the suspended Participating Agency with a written summary of the reasons for the suspension and notify all other Participating Agencies of the suspension.

The suspended Participating Agency agrees to provide the Data Governing Board with a written plan of correction to the suspension within ten (10) business days of being notified of the suspension.

Any objection shall specify the reason that the Participating Agency feels the suspension is inappropriate. The plan of correction shall describe the action that the Participating Agency is taking to address, mitigate and remediate the issue(s) that caused the Data Governing Board to recommend that a suspension was appropriate and include a timeframe for such actions. The Data Governing Board shall meet and review a suspended Participating Agency's plan of correction or objection within ten (10) business days of receipt from the Participating Agency; determine whether to recommend to the Executive Board to accept or reject the plan of correction or affirm the suspension; and communicate such decision to the Executive Board who will act on such recommendation and provide its decision to the suspended Participating Agency and the Data Governing Board.

If the Data Governing Board rejects the plan of correction, it shall work in good faith with the suspended Participating Agency to develop a mutually acceptable plan of correction. If the Data Governing Board and the suspended Participating Agency cannot reach agreement on the content of the plan of correction or on the reasons supporting the suspension it, the Data Governing Board may submit the Dispute to the Executive Board or make a recommendation to terminate the Participating Agency.

Any suspensions imposed shall remain in effect until the Participating Agency is reinstated or terminated in accordance with this E-MOU. A Participating Agency shall be suspended by the Data Governing Board before the Participating Agency can recommend termination of the Participating Agency.

3. Reinstatement

A. After Voluntary Suspension by a Participating Agency

The Participating Agency that has voluntarily ceased Data Sharing can advise the Operating Group of its decision to resume Data Sharing services. The Operating Group shall advise the Executive Board, the Data Governing Board, and all other Participating Agencies of the resumption of Data Sharing.

B. After Suspension with Cause

When a Participating Agency's ability to participate in the data sharing services has been suspended by the Data Governing Board with cause, the Participating Agency agrees to provide evidence to the Data Governing Board of the Participating Agency's fulfillment of the obligations of its plan of correction. The Data Governing Board shall review such evidence at its next regularly scheduled meeting following receipt from the Participating Agency.

If the Data Governing Board is not satisfied that the Participating Agency has met its obligations under its plan of correction, the Data Governing Board shall inform the Participating Agency of

Once an amendment is approved by the Executive Board, all Party(ies) shall sign the amendment to the E-MOU prior to the effective date of the amendment, or terminate their participation in accordance with Section XIX.B. of this E-MOU.

the deficiencies within five (5) business days of reaching that decision. The Participating Agency will have the ability to submit additional evidence that addresses such deficiencies.

When the Data Governing Board is satisfied that the evidence presented indicates that the Participating Agency has fulfilled its obligations under the plan of correction, it shall recommend that the Executive Board instruct the Data Governing Board to take all actions necessary to reinstate the Participating Agency’s ability to participate in the data sharing services including, but not limited to the reinstatement of the Participating Agency’s access to the Data Sharing services. Such action should be completed as soon as possible but not later than three (3) business days after reaching that decision. The Executive Board shall inform all Participating Agencies of such reinstatement forthwith.

Multiple suspensions with cause may result in a permanent suspension.

Procedures for Breach Notification

1. Procedures for Party Breach Notification

A. Notification Process

Upon initial notification of an actual or potential Breach or reason to believe PII was breached, the Party (ies) responsible for or affected by such Breach shall report such event to the Operating Group for the Data Governing Board. Such reports shall be made as soon as the Party learns of the Breach or potential Breach but no later than 24 hours from when the Participating Agency discovered or had reasonable belief that there was an actual or potential Breach by unauthorized individuals or entities. Party (ies) shall also comply with any federal and state law and regulations regarding Breaches, including but not limited to requirement of notices to the Attorney General's Office pursuant to C.S.G § 36a-701b and to the State Auditor and Comptroller pursuant to C.G.S. § 4-33a(3).

B. Notification Content

The Notification shall include sufficient information for the Data Governing Board to understand the nature of the actual or potential Breach. For instance, such Notification shall include, to the extent available at the time of the notification, the following information:

- 1) One or two sentence description of the actual or potential Breach;
- 2) Description of the roles of the people involved in the actual or potential Breach (e.g. state employees, users, service provider, unauthorized persons, etc.);
- 3) Type of actual or potential data Breach;
- 4) Party (ies) likely impacted by actual or potential Breach;
- 5) Number of users or records impacted/estimated to be impacted by the actual or potential Breach;
- 6) Actions taken by the Party to mitigate the actual or potential Breach;
- 7) Current status of the actual or potential Breach (under investigation or resolved); and
- 8) Corrective action taken and steps planned to be taken to prevent a similar actual or potential Breach.

The Notification shall not include any confidential or protected Data. The Party agrees to supplement the information contained in the Notification as it becomes available.

If, on the basis of the information available to the Party, the Party believes that it should temporarily cease providing Data with all other Participating Agencies, it may undergo a service level interruption or voluntary suspension in accordance with Appendix 1 of this E-MOU.

2. Disposition of Breach Alerts and Notifications

A. Review of the Breach by the Data Governing Board

The Data Governing Board shall facilitate a meeting upon receipt of the actual or potential Breach alert or Notification for the purpose of reviewing the Notification and determining the following:

- 1) The impact of the Breach or potential Breach on the privacy, security, confidentiality and integrity of the Data Sharing process;
- 2) Whether the Data Governing Board needs to take any action to suspend the Party(ies) involved in the Breach or potential Breach in accordance with Appendix 1 of this E-MOU;
- 3) Whether the Data Governing Board should take any other measures in response to the notification or alert;
- 4) The Data Governing Board shall, if needed, request additional information from the Party(ies) involved in the Breach or potential Breach to fulfill its responsibilities. However, with respect to potential Breach alerts, the Data Governing Board is encouraged to hold inquiries and request additional information to allow the Party(ies) time to determine whether a Breach actually occurred. After determination of a Breach (whether actual, potential or it is determined that it is not a Breach), there should be documentation kept by the Party(ies) of the event that occurred, in order to maintain records for review in case of audit, etc.

B. Voluntary Suspension of Termination by the Participating Agency

If, on the basis of the actual or potential Breach alert or Notification, a Party(ies) desires to cease Data Sharing with the Participating Agency(ies) involved in the potential or actual Breach, pursuant to Appendix 1 of the E-MOU, such Participating Agency shall notify the Operating Group for the Executive Board Chairperson of such suspension. The Operating Group for the Executive Board's Chairperson shall notify members of the Data Governing Board and all Party(ies) of such suspension and maintain a log of all such suspensions.

C. Determination of Breach Resolution

Once complete information about the Breach becomes available, the Data Governing Board shall meet to determine whether the actions taken by the Party(ies) involved in the actual or potential Breach are sufficient to mitigate the actual or potential Breach and prevent a similar Breach from occurring in the future. Once the Data Governing Board is satisfied that the Party(ies) has taken all appropriate measures, the Data Governing Board shall deem the actual or potential Breach resolved and will so advise the Executive Board of such recommendation.

- 1) This resolution will be communicated to all Party(ies) (by communicating with the appropriate DSG representative) involved in the actual or potential Breach and those Party(ies) that ceased Data Sharing with the Participating Agencies involved in the Breach.

- 2) Lessons learned on the root cause of the actual or potential Breach will be communicated to all Party(ies), including those not involved in the actual or potential Breach, to prevent a recurrence of the event in the future.

Appendix 4
Change Process for Data Sharing Services

1. Requests for Change

A. Process Changes

The Executive Board shall have the authority to adopt new processes for Data Sharing pursuant to this E-MOU to maintain or improve the integrity of data being exchanged and improve the efficiency and efficacy of how the data is being shared (collectively a “Process Change”) by adopting amendments to the E-MOU. For Process Changes, and upon the request from the Executive Board, the Data Governing Board may evaluate the change and provide comments to the Executive Board.

B. Compliance Changes

The Executive Board shall have the authority to recommend to adopt new processes or to make changes to the existing E-MOU that are necessary for compliance with all applicable state and federal laws and regulations (collectively a “Compliance Change”). For Compliance Changes, and upon request from the Executive Board, the Data Governing Board may evaluate the change and provide comments to the Executive Board.

2. Receipt

All requests for changes shall be directed in writing to the Chairperson of the Executive Board with a copy to the Operating Group. The Operating Group, on behalf of the Executive Board, shall catalog all requests for changes upon receipt. The catalog shall include:

- b) Name and version number of the specification (where applicable);
- c) Whether the proposed change is a Process Change, Compliance Change or a request for consultation;
- d) Brief description of the reasons for the proposed change (e.g. to enhance metadata available about a document, to meet requirements of a new use case or to comply with a specific law or regulations);
- e) Description of the actual changes;
- f) Preliminary analysis of the potential business and technical impact to Participating Agencies and their Users; and
- g) Estimation of cost to implement the proposed change initially and to provide ongoing support and maintenance.
- h) Copy of the specification.

3. Evaluation

The Executive Board, through the Operating Group, shall, within five (5) business days after the receipt of the request, forward the request for change to the Data Governing Board for technical evaluation of the request and to make a recommendation to the Executive Board. During consideration of the request for change, the Data Governing Board may request additional help from Party (ies), or the requesting Party, or a committee appointed by the Executive Board as the Data Governing Board deems reasonably necessary.

A. Evaluation Criteria for Proposed Changes

1) Evaluation of Process Changes

If the change is a Process Change, the Data Governing Board, through the Operating Group, shall ensure that each Party is provided a copy of the original proposed change. Each Party shall respond in writing to the Operating Group by a designated response date with the following information:

- a. Will implementation of the Process Change have a significant adverse operational or financial impact (e.g., cost benefit analysis) on the Party;
- b. Will implementation of the Process Change require the Party to materially modify its existing agreements with its Users or third parties;
- c. Does the Party believe that implementation of the Process Change will require an amendment to the E-MOU, including amendments to the permitted purposes; and
- d. Indicate whether the Party would implement a change if optional.

The Party agrees to provide supporting reasons or rationale for each response where the Party responds in the affirmative. The Data Governing Board may request additional information from Party(ies) to further evaluate the responses.

2) Determination of Process Changes

The Data Governing Board shall review responses to inform its recommendation to the Executive Board about the proposed change. The criteria when considering the proposed change shall include:

- a. If the change has a significant adverse operational or financial impact on any of the Party(ies);
- b. Does the change require any of the Party(ies) to modify their existing agreements with Users or third parties;
- c. Require an amendment to the E-MOU;
- d. The value of the change to the Party(ies), clients of the Participating Agencies, and to the State as a whole; and

- e. The risks of implementing or not implementing the proposed change to the Participating Agencies, clients of the Participating Agencies, and to the State as a whole.

In addition, the Data Governing Board shall consider the implications of the change to the policies and procedures for the Data Sharing.

If a new agency becomes a Participating Agency after the Participating Agencies have been asked to respond to questions about the Process Change but before the designated response date, the new Participating Agency will be given an opportunity to respond by the designated response date.

The Data Governing Board shall present its recommendation to the Executive Board at the Executive Board's next regularly scheduled meeting following the designated response date. The Executive Board shall review the Data Governing Board's recommendation and make a final decision whether the Process Change is an approved change.

3) Evaluation of Compliance Changes

If the proposed change is a Compliance Change, the Data Governing Board shall review the change to assess its impact. The Data Governing Board shall meet with the Executive Board and present its findings and recommendations within thirty (30) days of the Data Governing Board receiving the Compliance Change. The Executive Board shall review the Data Governing Board's recommendation and make a final decision within two (2) weeks of receiving the Data Governing Board's recommendation.

4) Evaluation of the Timeline for Implementation of the Change

For both Process Changes and Compliance Changes, the Data Governing Board shall assess and make recommendations to the Executive Board on the timeline for implementing the change including, but not limited to the amount of time that Party (ies) should be given to migrate to the new specification. The Data Governing Board shall consider:

- a. Whether the change impacts Data Sharing among the Participating Agencies;
- b. All other projects in which the Participating Agencies are engaged, their timelines, the availability of staff and resources and how they would affect the proposed timeline for implementing the new change.
- c. Prior specifications that will be supported for backward compatibility purposes and the business implications of such support:
- d. If multiple versions will be supported, a sunset date for such support as the multiple versions are collapsed;
- e. The business implications for Participating Agencies related to migrating to the new specification;
- f. The number of Participating Agencies and number of transactions that will be impacted by the new specification;

- g. The amount of time that Participating Agencies should be given to migrate to the new specification; and
- h. Sunset dates as “old” specifications are retired.

The Data Governing Board shall present its recommendations regarding implementation to the Executive Board at the same time it presents its other recommendations regarding the same change to the Executive Board. The Executive Board shall review the Data Governing Board’s recommendation and make a final determination regarding the timeline.

B. Response

1) Process Changes

At the conclusion of the response period established during the evaluation of the proposed change, the Executive Board shall evaluate whether to approve the Process Change, if an E-MOU change will be required, and a proposed timeline for implementation. Revisions to the E-MOU mandated by approved Process Changes will be performed in accordance with Appendix 3 of this E-MOU.

2) Compliance Changes

Depending on the responses from the Party(ies), the Executive Board may provide input to all Party(ies) on the impact of the Compliance Change and the recommended timeline for implementation.
