

Virtual Meeting of the GIS Advisory Council

June 29, 2023

1:00 PM EDT

[Teams Meeting](#)

1. Introductions
2. Introductory Remarks
3. Public Comment
4. Meeting Administration
5. GISO Priority Topics and Working group updates
 - a. Aerial Imagery
 - b. GIS Clearinghouse
 - c. Parcel Drafting Standards
 - d. Addressing
 - e. Broadband Mapping
 - f. CAMA/Parcel Data acquisition
6. Parcel Collection and Aggregation Application
 - a. The GIS Office is exploring options (in-house development and vendor development) to create a web application to aid localities, COGS, and the state in streamlining parcel and CAMA collection. The application would allow localities to upload data while COGs can access and edit submissions while automating metadata collection and aggregation workflows.
7. Local Data Improvement Grants
 - a. The GIS Office is seeking feedback on ways to promote sustainable improvements in GIS data (parcel, CAMA, addresses, etc.) through a grant program. The program would be run through COGs but would be aimed at towns that do not have capacity to improve existing data and will be tied to compliance with state standards and processes (ie Parcel and CAMA collection).
8. 5-Year Plan Outreach Preliminary Results Discussion
 - a. Carl Zimmerman will be presenting on the preliminary results for the 2023 Strategic Planning Process. He will discuss the survey respondents, key themes, and further work necessary to complete the process including an implementation plan.

9. Adjourn
