# **PRESCRIPTION MONITORING PROGRAM**

---

**SNAP SHOT OF LEGAL CONTROLLED SUBSTANCE  
PRESCRIPTION USAGE THROUGHOUT CONNECTICUT**

# Disclaimer

All of the data reported by the PMP is compiled at specific points in time and captures only data currently entered at that time. The data values may subsequently be updated and may change as over time as those updates occur. Accordingly, quarterly reported data may not perfectly match annually reported data. The data does not contain any information about the diagnosis and does not reflect the use intended by the prescriber.

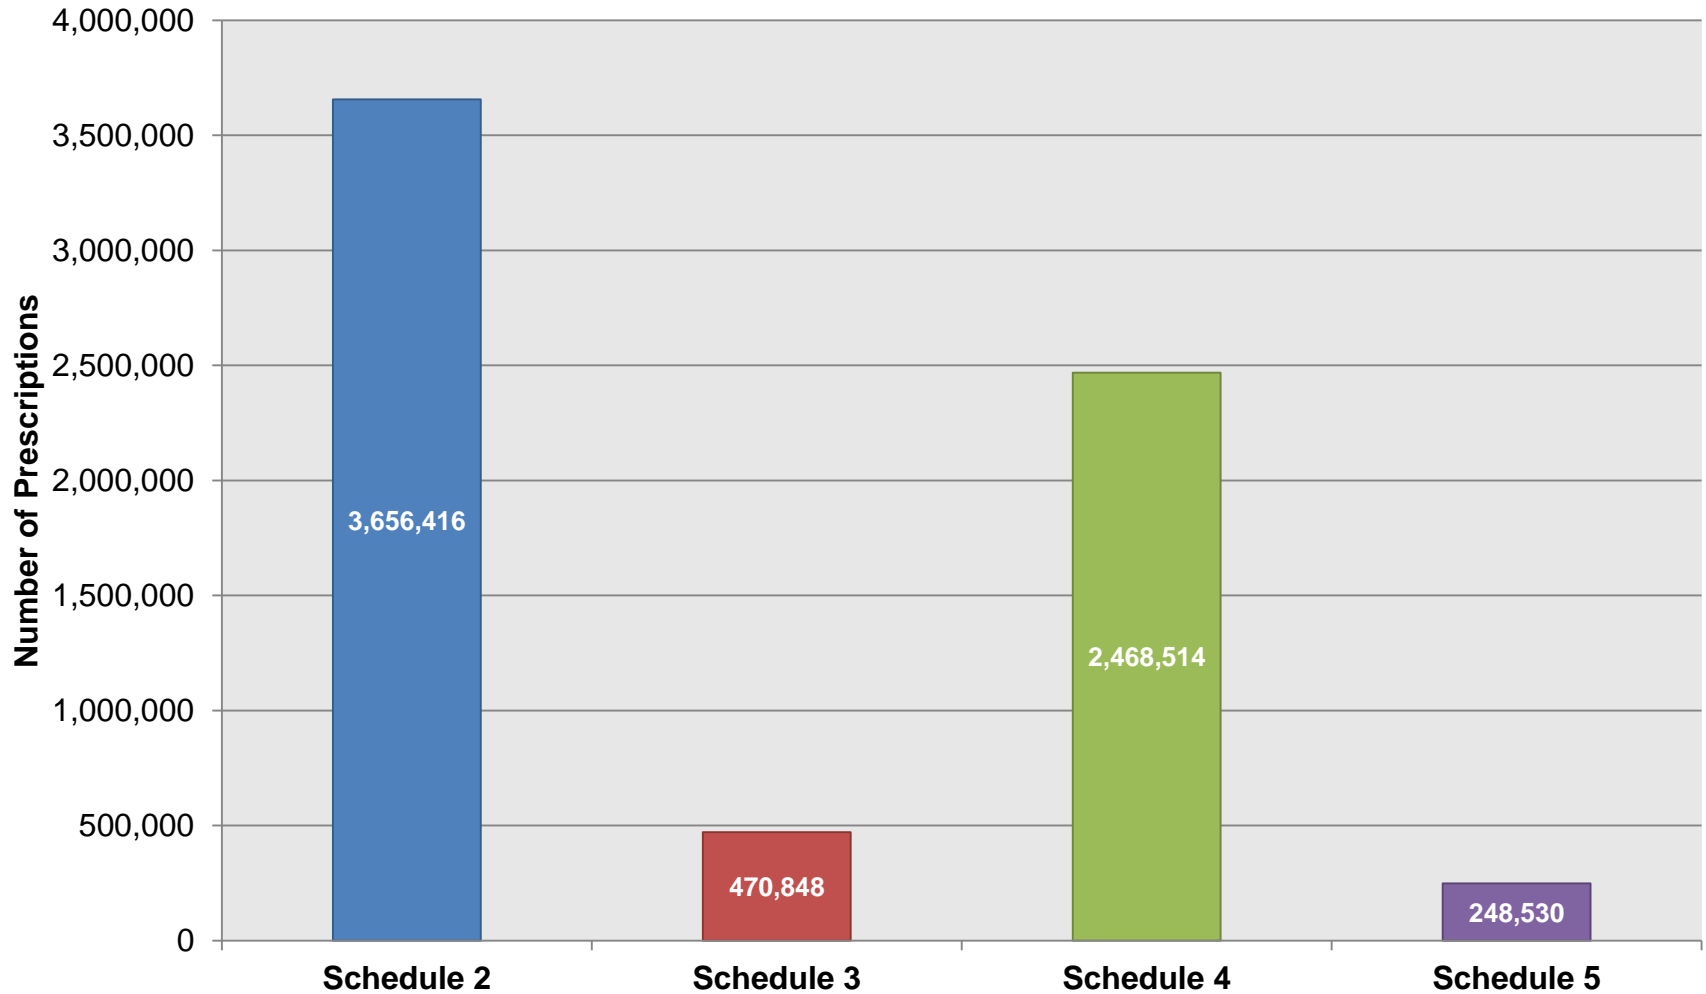

# Controlled Substance Rx/Year

# 2018 Prescriptions per Quarter

# 2018 Prescriptions by Drug Schedule

# 2018 Patient Demographic Environment

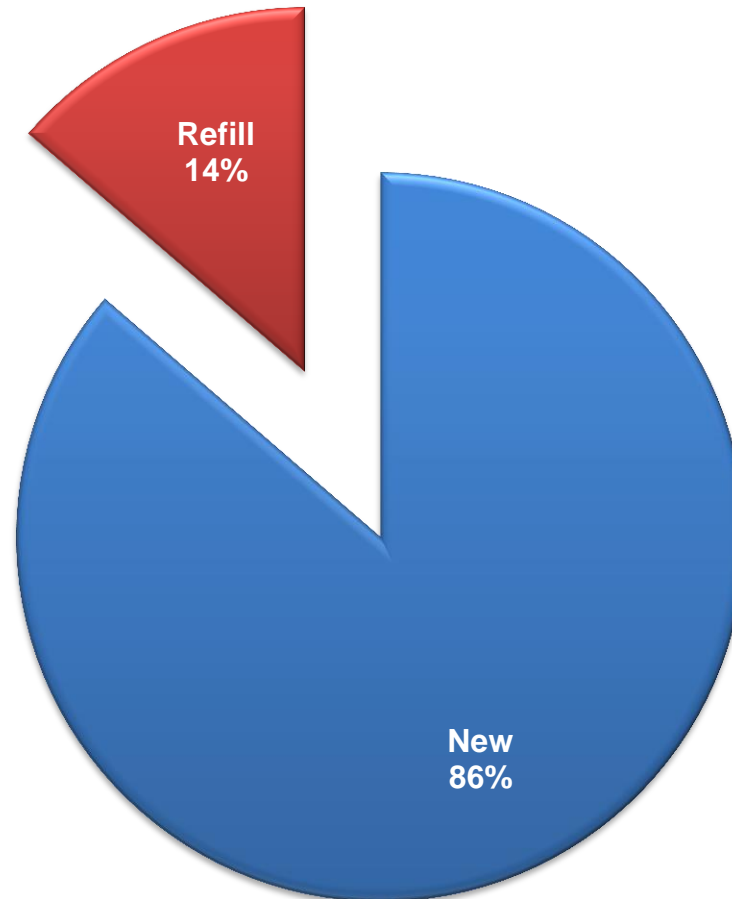

- Unknown
- Rural
- Urban

# 2018 Payment Type of Prescriptions

# 2018 New vs. Refill Prescriptions

# 2018 % Prescriptions > 90 MME vs. All

\*Morphine Milligram Equivalent (MME) is a standard metric used to compare the potencies of different opioid medications. A combination of medications with an MME of 90 or above is considered a level that would put a patient at increased risk for an overdose.

# Opioid vs. Non-Opioid Prescriptions

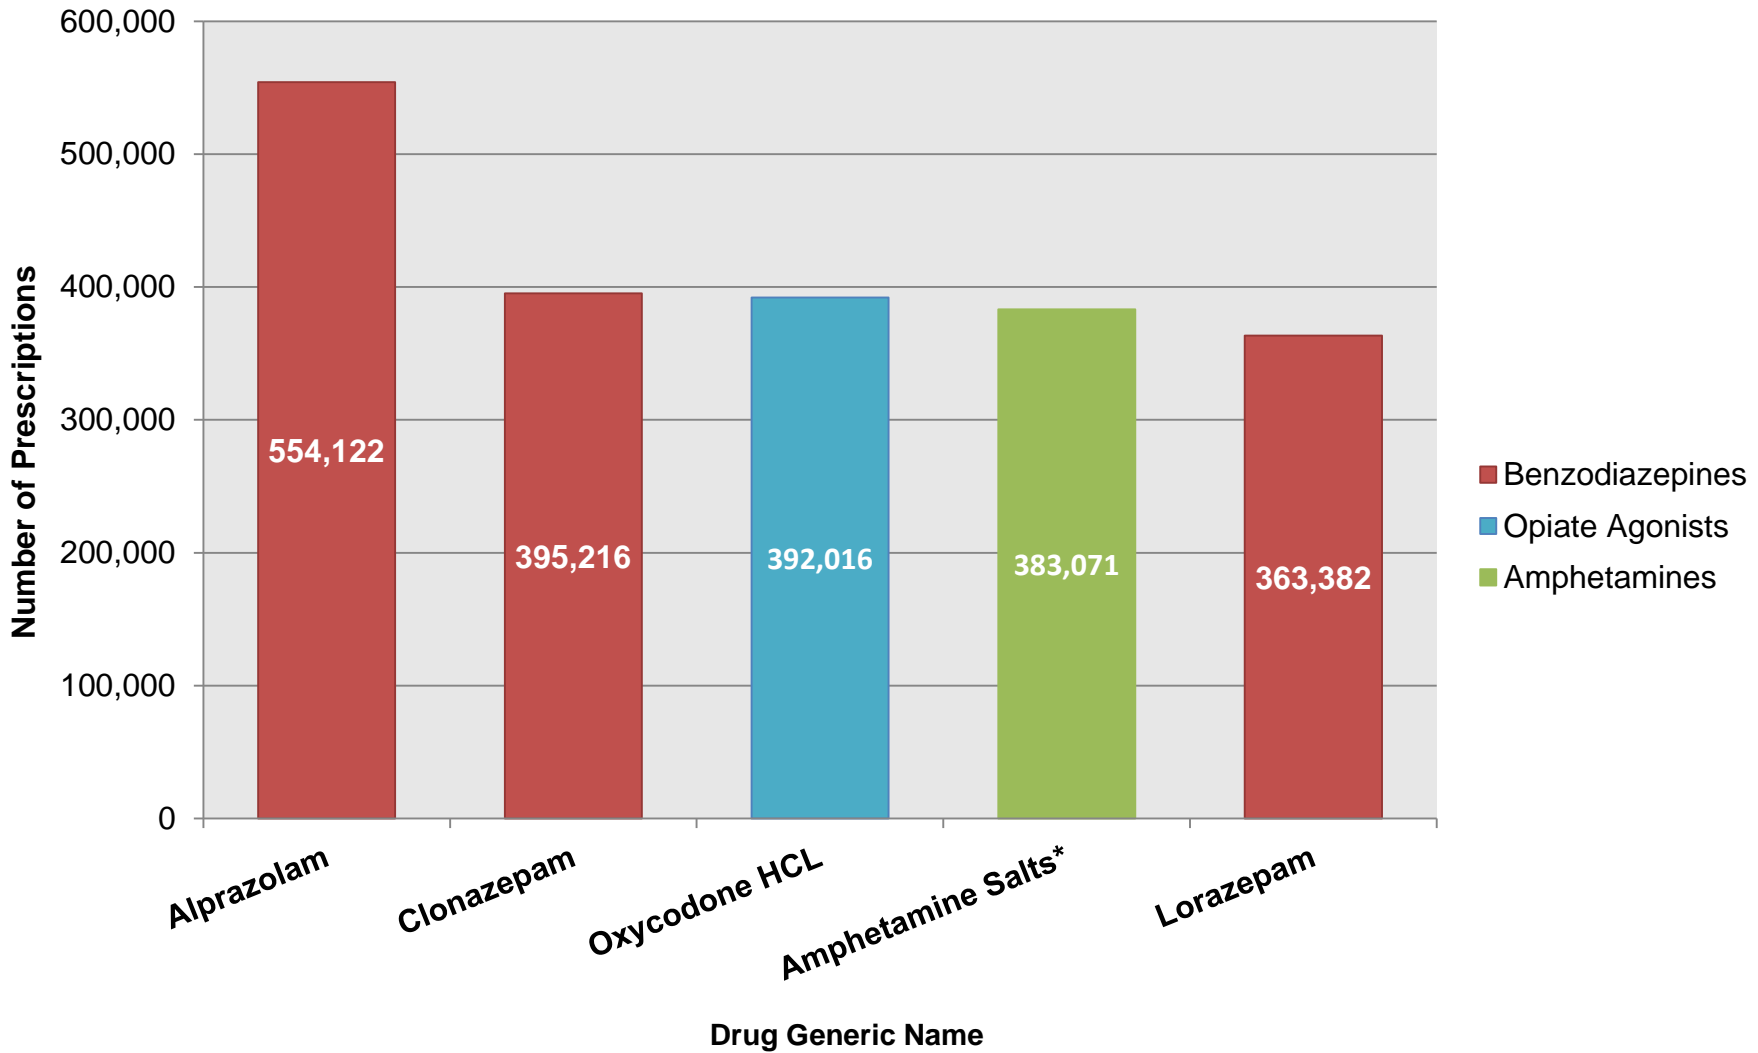

# Opioid Prescriptions per Year

# Benzodiazepine Prescriptions per Year

# Most Prescribed Controlled Substances

\*Specifically, the drug dextroamphetamine sulf-saccharate/amphetamine sulf-aspartate

CONNECTICUT DEPARTMENT OF  
**CONSUMER PROTECTION**

# **Connecticut Prescription Monitoring & Reporting System (CPMRS)**

# Users Registered in the CPMRS per Year

<sup>1</sup>In June 2016, DCP switched to a new system so only 6 months of data is available for 2016. This data excludes requests done by prescribers through their electronic health record (EHR) integration with the CPMRS.

# CPMRS User Searches per Year

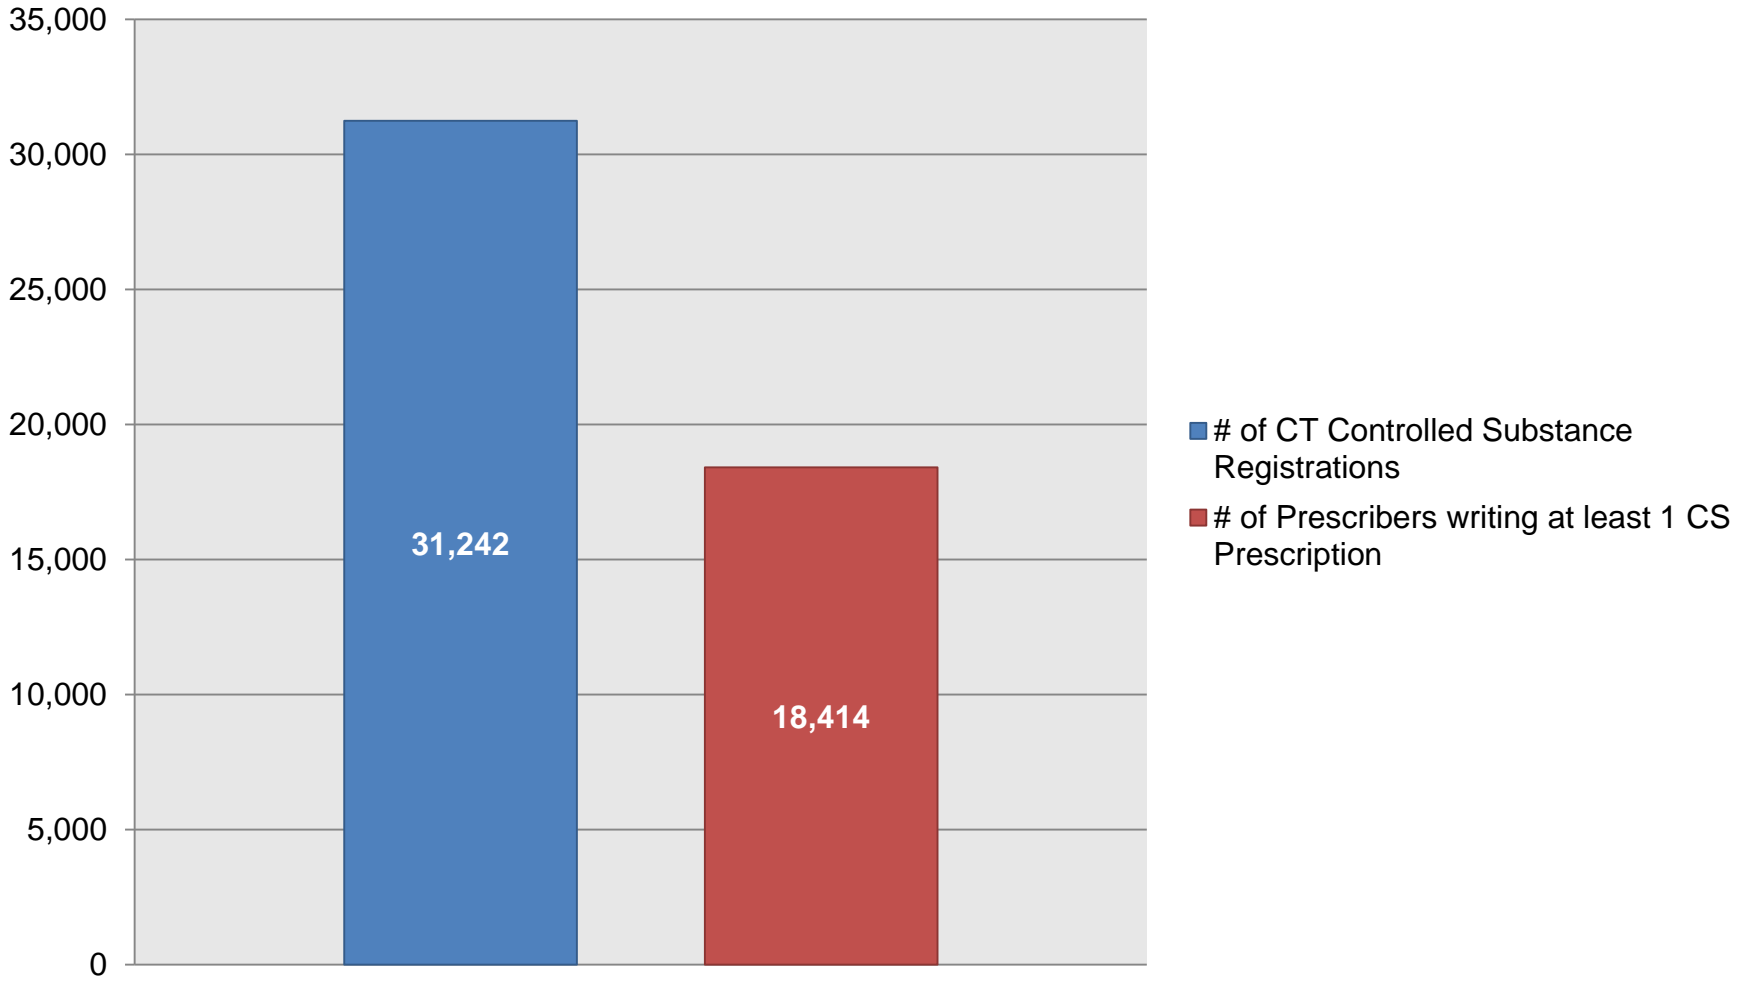

<sup>1</sup>In June 2016, DCP switched to a new system so only 6 months of data is available for 2016. This data excludes requests done by prescribers through their electronic health record (EHR) integration with the CPMRS.

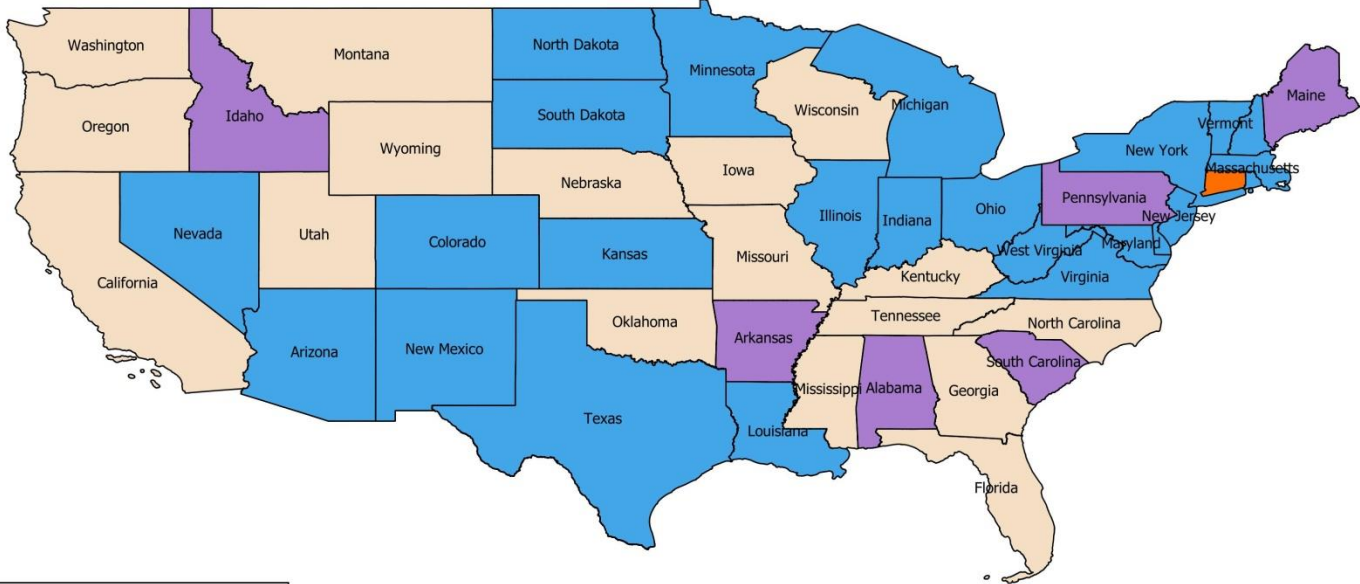

# CT Controlled Substance Registrations vs. CT Practitioners Writing at least 1 CS Prescription

# % of Prescribers Utilizing CPMRS who wrote at least 1 CS Prescription

# Data Sharing States

- Legend**
- Connecticut
  - Data sharing began in 2016
  - Data sharing began in 2017
  - Data sharing began in 2018
  - Currently not sharing data
