D-2: In regards to the letter that was sent from James Purcell on January 31, 2019 regarding the scheduling of a visit from NCEES leadership; Davy McDowell and Paul Tyrell will be attending the meeting.

Mr. McDowell and Mr. Tyrell presented the following points in regards to the operations and services of NCEES:

NCEES headquarters will be moving from Clemson to Greenville, South Carolina. The new facility will be able to accommodate the host development of exams in addition to the various services offered by NCEES.

Mr. McDowell provided an overview of exam development and the transitions of all disciplines in the next few years. By the year 2023 all exams will be computer-based testing.

Credential Evaluations of foreign degrees- as of July 1, 2019, the required hours for equivalency for humanities will decrease from 16 to 12 hours.

NCEES Record: Updated employment is updated every six months and reviewed by a professional engineer or land surveyor. Boards may not require all the information that is provided in the NCEES record, but if there is something that is not contained and is required by a Board, that state board is encouraged to notify NCEES for any additions.
