

Dear DDS Providers,

We have received many inquiries regarding funding and fiscal processes this week. We are working through specific answers as quickly as possible, under evolving state and federal guidance. We plan to have more detailed information on funding, contracts, and reporting out to providers as soon as possible.

In the meantime, please be assured that the administration is focused on the health and safety of all Connecticut residents and is committed to supporting providers in maintaining operations with as little interruption to individuals and staff as possible.

Thank you for your continued dedication during these challenging times.
