

THANK YOU NURSES

When you're a nurse,
you know that every day
you will touch a life or
a life will touch yours

VALENCIA BAGBY-YOUNG
DIRECTOR OF HEALTH & CLINICAL SERVICES

A special thanks to all the nurses who work in the field of Intellectual and Developmental Disabilities. It may seem that your hard work goes unnoticed, but we see you and appreciate all that you do.

JORDAN SCHEFF
COMMISSIONER

While I have relied on our nurses for years for all sorts of things, and we are grateful for them always, I want to give a special thank you this year on Nurse's day. Throughout this pandemic, they have shown devotion, courage, and strength in a way that has been contagious - contagious in the good way. While we continue to turn to them for all the reasons we do, when we turn to them today, and we will, show them a little extra socially distanced appreciation. I can't imagine doing this without them.

PETER MASON
DEPUTY COMMISSIONER

Care for one, that's love. Care for all, that's nursing. DDS leadership is truly grateful for the work our nurses do to care for the individuals we support. The dedication and compassion in which they do their jobs is simply heroic. We are thankful for our nurses today and every day
