PEER NETWORK

The mission of the Department of Developmental Services (DDS) is to partner with the individuals we support and their families, including lifelong planning and joining with others to create and promote meaningful opportunities for individuals to fully participate as valued members of their communities.

DDS is partnering with Public Partnerships | PPL and the Connecticut Family Support Network (CTFSN) to bring a new and exciting resource for individuals in DDS, self-directing their care and support, who are Employers of Record (EOR's) - the Peer Network!

INTRODUCING THE PEER NETWORK

What is it, and who benefits?

The Peer Network is a digital platform that Employers of Record (EOR's) can seek, or offer help, on all topics related to self-direction. It also offers the opportunity for sharing relevant resources and services, or for individuals to simply make meaningful connections. PPL developed and is supporting the platform.

Who can join?

Employers of Record that have completed training with PPL can join, either to receive additional support or to provide support to others.

How do EOR's join?

Simply reach out to one of our trainers or the CTAdmin@pcgus.com inbox and PPL will help you get started and grant access. PPL has a simple form that will walk you through our best practices as well as a training opportunity through the Peer Network invitation process and platform.

Is the Peer Network a public website?

No. The Peer Network access is restricted and by invitation only. Individuals may only join through the form provided by a PPL trainer and only after the required training in Brainier is obtained.

All personal information stored within the Peer Network is both safe and secure.

Still have questions? We are here to help.

Contact PPL at CTAdmin@pcgus.com for help answering all your Peer Network questions.
