Provider Description

Information provided by the provider describing their agency:

Eprine strives to provide quality services to communities of all nationalities/nondiscriminatory. Eprine’s purpose is to bridge the divide between services and people. As an organization, we are able to communicate with persons who speak Spanish, Haitian Creole and English. By communicating to participants and their family members in their language of origin, the person centered planning process will be all inclusive. Our staff are trained to be culturally sensitive to each individual. Our services are tailored to meet the individualized needs of each person while taking into consideration their desired outcomes. Additionally, we design our services base on each participant’s wishes. Eprine rejects the “one fits all” approach. Accordingly, we envision that each life we touch has the opportunity for enhancement and that we at Eprine grow from each experience. Eprine makes every effort to bring forth each individuals maximum potential in an effort to allow them to become as independent as possible. Annually, the organization conducts satisfaction surveys as an additional step to assure quality and takes into consideration the needs of the persons served.

Our goal is to foster compassion while providing empathy in safe, caring environments that enriches each life we interact with. Moreover, Eprine strives for empowerment which enhances the strengths of individuals, families and communities, while providing opportunities to succeed and participate fully in their community.
