Provider Description

Information provided by the provider describing their agency:

At The Inclusive Pathways Project LLC, our mission is to support individuals with disabilities and their families in identifying and achieving their future goals by fostering independence, personal growth, and inclusion through collaborative partnerships and person-centered methodologies. Every service we provide is guided by this commitment to empowering people to thrive in ways that reflect their unique strengths, values, and aspirations. Through Clinical Behavioral Consultation, we work directly with adults, families, and support teams to address behavioral challenges using evidence based strategies. Our approach goes beyond reducing barriers; it emphasizes building meaningful skills, promoting self advocacy, and cultivating environments that encourage autonomy and belonging. By collaborating with families, DDS, healthcare providers, employers, and community partners, we ensure that interventions are not only effective but also sustainable across the settings that matter most in an individual's daily life. Our Healthcare Coordination services extend this vision by bridging gaps between providers, systems, and families. We recognize that navigating healthcare can be overwhelming, particularly for individuals with complex needs. By offering structured coordination, we ensure access to appropriate medical, therapeutic, and support services while respecting the person's voice and choice. This service is about more than logistics; it is about advocacy, clarity, and continuity of care that truly honors each individual's goals for health and well-being. Together, these services reflect our belief that independence, personal growth, and inclusion are best achieved when support is intentional, collaborative, and centered on the whole person.
