### Provider Description

#### Information provided by the provider describing their agency:

My approach is based on positive behavior support; building on individual strengths, identifying the function of behavior, and focus on preventing the incidence of problem behavior.

The bulk of my experience in providing Clinical Behavioral Support services has been with adults with intellectual disabilities, many of whom have Autism Spectrum Disorder, or who have concurrent mental illnesses.

I have been working with individuals with intellectual disabilities since 1988. I have worked as a Behavior Support Professional for a private provider agency since 2002. I hold a Master of Science degree in general psychology.
