

Approved by Director: Dr. Guy Vallaro

Purpose: To provide definitions for abbreviations which are used on worksheets and in reports.

Responsibility: Section chemist or designee

Procedure: List of all abbreviations and definitions.

GC/MS: gas chromatography/mass spectrometry

IC: ion chromatography

Char tube: charcoal tube adsorption/elution extraction technique

CE: capillary electrophoresis

QA/QC: quality control system

TIC: total ion chromatogram

SIM: selected (extracted) ion chromatogram

GC: gas chromatograph

MS: mass spectrometer (mass selective detector)
