

Satellite Waste Monitoring

Laboratory:

Room:

Year: _____

Date of
check ----->

	Yes	No	Yes	No	Yes	No	Yes	No	Yes	No
Are all containers closed?										
Are all containers in good condition - not leaking, rusted or otherwise in poor condition?										
Are all containers properly labeled: with "Hazardous Waste" and a description of what is in the container?										
Is the label legible and visible for inspection?										
Does the label include the accumulation start date?										
Are container fill dates less than 72 hours? (end date, not start date)										
Are the containers stored in a containment device (bin made of material that will not react if there is a spill and contain a spill) that are free of gaps, cracks or damage?										
Is the containment device free of spilled or leaking materials?										
Are incompatible materials separated?										

Check performed by:

Notes of observations or corrective actions taken:

* If any topic is graded as no please note what remediation was done to correct the problem.
