

## Satellite Waste Monitoring

Laboratory:

Room:

Year: \_\_\_\_\_

Date of  
check ----->

	Yes	No	Yes	No	Yes	No	Yes	No	Yes	No
Are all containers closed?										
Are all containers in good condition - not leaking, rusted or otherwise in poor condition?										
Are all containers properly labeled: with "Hazardous Waste" and a description of what is in the container?										
Is the label legible and visible for inspection?										
Are container filled dates less than 72 hours? (Once full, the container must be move to Waste storage room within 72 hours)										
Are the containers stored in a containment device (bin made of material that will not react if there is a spill and contain a spill) that are free of gaps, cracks or damage?										
Is the containment device free of spilled or leaking materials?										
Are incompatible materials separated?										

Check performed by:

Notes of observations or corrective actions taken:

\* If any topic is graded as "no" please note what remediation was done to correct the problem.
