

Satellite Waste Monitoring		Laboratory:					Room:			
Year: _____										
Date of Check----->										
Are all containers closed?										
Are all containers in good condition - not leaking, rusted or otherwise in poor condition?										
Are all containers properly labeled with "Hazardous Waste" and a description of what is in the container?										
Is the label legible and visible for inspection?										
Are container filled dates less than 72 hours? (Once full, the container must be moved to waste storage room within 72 hours)										
Are the containers stored in a containment device (bin made of material that will not react if there is a spill and contain a spill) that is free of gaps, cracks or damage?										
Is the containment device free of spilled or leaking materials?										
Are incompatible materials separated?										
Check performed by:										

Y or √ = Yes, N = No, NA = Not applicable

*If any topic is graded as "no" please note what remediation was done to correct the problem.

Notes of any observations or corrective actions taken:
