

LP SOP-09 Superglue Chamber Operation & Maintenance

Approved by Director: Dr. Guy Vallaro

Document ID: 1205

Revision: 2

Effective Date: 10/15/2015

Status: Published

Page 1 of 1

A. Purpose:

To establish maintenance protocols for the latent print section's superglue processing chambers.

B. Responsibility:

Latent Print Examiners

C. Procedure:

1. For superglue chamber operation and maintenance refer to the operator's manual kept in the latent print processing laboratory.
2. A log will be kept for each processing chamber to record the date that filters were changed.
3. Chambers not operating properly will be removed from service until repaired.
