# TRACK·KIT® for Law Enforcement Agencies
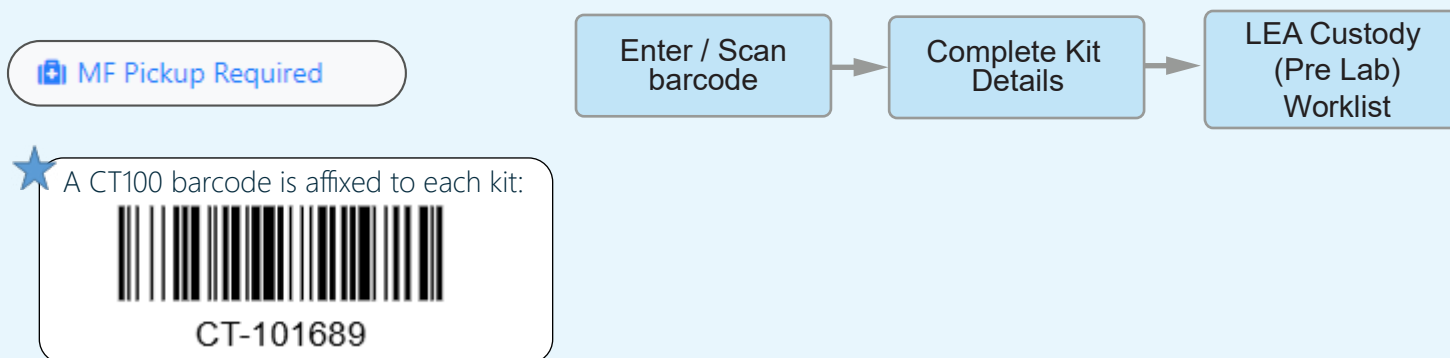

What is Track-Kit?

Track-Kit is a web-based software for tracking sexual assault kits. It is a highly integrated solution used to track kits from distribution, to collection, to processing, to storage. Track-Kit also allows survivors to confidentially view the location and status of their kits.

Start by scanning a barcode

Picking Up Kits

You will pick up kits from the medical facility. You must enter mandatory fields (marked with a red asterisk*) to complete a pickup.

⊞ MF Pickup Required

Enter / Scan barcode → Complete Kit Details → LEA Custody (Pre Lab) Worklist

⭐ A CT100 barcode is affixed to each kit:

CT-101689

Releasing Kits for Testing

If requested by the survivor, you may need to update the Anonymous value of a kit in order to release it to the lab for testing. You may release a kit that is in LEA Custody or Lab custody.

1. Enter or scan the kit to open the **Kit Details**.
2. Set the **Anonymous** value to **No**.

- When **Anonymous** is set to **No**, **Consent for Forensic Testing** automatically sets to **Yes**.

Anonymous * ❓	○ Yes	● No
Consent for Forensic Testing * ❓	● Yes	○ No

Receiving Unexpected Kits

Unexpected kits are kits with no recorded collection data. These kits may come from a medical facility using Track-Kit or from non-participating medical facilities (in your state or out-of-state).

1. If the kit is an Out-of-State kit, then email dss.saktracking@ct.gov and request a CT barcode.
2. If the kit has a CT100 barcode, then enter or scan the kit to open the **Kit Pickup Wizard**.
3. Confirm the barcode
4. Please enter Medical Facility details and Law Enforcement pickup information

Survivor Password
You can help survivors reset their passwords.

1. Enter/Scan the kit barcode to open the **Kit Details**.
2. At the bottom of the page, click **Reset Survivor Password** to open the Password Reset Wizard.
3. Select a reset method using the radio buttons.

   - If 'Password Reset Email' or 'Password Reset Text' is selected, the account will be locked until the password has successfully been reset by the survivor.
   - If 'Manual Password Reset' is selected, you must provide the new password to the survivor so they can access the account.

Password Reset Wizard

Please complete the following form. Mandatory fields are marked with a red asterisk(*)

- ◉ Password Reset Email
- ○ Password Reset Text
- ○ Manual Password Reset
