

Buy America Preference Source of Supply Self-Certification Form

Rev. 1/15/2026

This certification is for a source of supply (original manufacturer) to certify the below articles, materials, and supplies are produced in the United States in accordance with the requirements found in the Buy America Act requirements (23 CFR 635.410) and the Build America, Buy America Act (BABA) requirements (2 CFR part 184). The individual completing this form takes full responsibility for the information included in the form.

1) COMPANY CONTACT INFORMATION

Source of Supply Name:	
Source of Supply Representative Name:	
Contact Email Address:	
Contact Phone Number:	

2) DETAILS OF THE ARTICLE, MATERIAL, OR SUPPLY:

Using Table 1 below, provide the **classification** of the article, material, or supply as one of the following: (1) iron or steel product; (2) construction material; or (3) manufactured product.

Classification	
Source of the Article, Material, or Supply:	
Product/Model/Part/Material:	
Manufacturing Address:	
Manufacturing City:	
Manufacturing State:	

MATERIAL CLASSIFICATIONS

1. Iron or Steel Product

Wholly or predominantly Iron or Steel, or a combination of both (23 CFR 635.410(b)(1)(ii)) in which the cost of the iron and steel content exceeds 50 percent of the total cost of all its components.	Certification requires all manufacturing processes, including application of a coating, for these materials must occur in the United States. Coating includes all processes which protect or enhance the value of the material to which the coating is applied.
--	---

2. Construction Material

Non-Ferrous Metals (2 CFR 184.6(a)(1))	Certification requires all manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.
Plastic and Polymer Based Products (including polyvinyl chloride, composite building materials, and polymers used in fiber optic cables) (2 CFR 184.6(a)(2))	Certification requires all manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.
Fiber Optic Cable (including drop cable) (2 CFR 184.6(a)(4))	Certification requires all manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.
Optical Fiber (2 CFR 184.6(a)(5))	Certification requires all manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States

Lumber (2 CFR 184.6(a)(6))	Certification requires all manufacturing processes, from initial debarking through treatment and planing, occurred in the United States.
Drywall (2 CFR 184.6(a)(7))	Certification requires all manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.
Engineered Wood (2 CFR 184.6(a)(8))	Certification requires all manufacturing processes, from initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

3. Manufactured Product

Manufactured Products other than Precast Concrete Products and Intelligent Transportation Systems and Other Electronic Hardware Systems Installed on the Highway ROW or Other Real Property (23 CFR 635.410(c)(1)(vii)) and 23 CFR 635.410(c)(1)(iv)	<ul style="list-style-type: none"> • Certification required for projects obligated on or after October 1, 2025, which requires the final manufacturing process occurred in the United States (excludes EV chargers). • Certification required for projects obligated on or after October 1, 2026, and all EV chargers, which requires the final manufacturing process occurred in the United States and the cost of the components that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product.
Precast Concrete Products (23 CFR 635.410(c)(2)(i))	Certification requires compliance with both the iron or steel product for any applicable component and manufactured product certification requirements as stated above.
Intelligent Transportation Systems and Other Electronic Hardware Systems Installed on the Highway ROW or Other Real Property (23 CFR 635.410(c)(2)(ii))	Certification requires compliance with both the iron or steel product for applicable cabinets or enclosures and manufacturing certification requirements as stated above.

3) DECLARATION OF SUBMITTAL

Do the articles, materials, or supplies submitted in this form comply with applicable domestic materials content procurement preferences found in the Buy America Act requirements (23 CFR 635.410) and the Build America, Buy America Act requirements (2 CFR part 184) Yes No

4) CERTIFICATION (Read and check all boxes before signing)

I certify that the description above is a true and accurate description of the article, material, or supply provided, and that the undersigned is in a position to legally bind the Company/Organization represented in this form.

I certify that the iron or steel product, construction material, or manufactured product complies with the applicable Buy America or BABA requirements.
