

**Pump Servicer and Installer 630.684.018**  
**Prime Objective - Work Schedule "A"**

The following schedule of work experience is intended as a guide. It need not be followed in any particular sequence, and it is understood that some adjustments may be necessary in the hours allotted for different work experience. In all cases, the apprentice is to receive sufficient experience to become fully competent and use good workmanship in all work processes which are a part of the trade. The apprentice will be fully instructed in safety and OSHA requirements. **PLEASE NOTE:** Connecticut Occupational Licensing Regulations require a minimum number of O.J.T. years (calendar time) as expressed below.

- A. Learn proper sizes and types of pumps, pipes, conditioners, controls, tank valves, connectors, seals, pitless adaptors, and caps used in installation and repair of water pumps and water conditioning systems. (1000 hours)
- B. Learn proper use of tools and equipment and acquire safe work habits. (200 hours)
- C. Learn to measure depth of wells, proper chlorination, preparation of piping and controls. (1000 hours)
- D. Making Piping connections into tank and systems. (700 hours)
- E. Learn method of troubleshooting on controls and water systems. (400 hours)
- F. Do service and repair of pumps and water conditioners. (700 hours)

**TOTAL - 4000 Hours**

G. Related Instruction Hours - 288

**Minimum OJT Years - 2**
