The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of the project is to reopen the bridge with a new structure that will be able to hold current load standards with improved safety measures for all roadway users.

Right-of-way impacts include one partial take, one drainage ROW easement, easements to slope for the support of the highway on three properties, temporary construction easements on two properties, rights to construct driveways, the installment of sediment control system, topsoil, and seed, and the removal of pavement.

Construction is anticipated to begin spring 2028 based on the availability of funding, acquisition of rights of way, and approval of permit(s). The estimated construction cost for this project is approximately \$4 million. This project is anticipated to be undertaken with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Wednesday, July 9, 2025, to [DOT-FLBP@ct.gov](mailto:DOT-FLBP@ct.gov), or (860) 594-2020, or Andrew Shields, Project Engineer at [Andrew.Shields@ct.gov](mailto:Andrew.Shields@ct.gov) or (860) 594-2077.
