III. DEPARTMENT ANALYSIS AND CONCLUSIONS OF LAW

The Department of Transportation has jurisdiction over any person operating any motor vehicle in the transportation of household goods for hire as a household goods carrier pursuant to Section 13b-389 of the Connecticut General Statutes. Further, no person shall operate as a household goods carrier, within Connecticut, without first obtaining a certificate of public convenience and necessity to so operate.

In determining whether such a certificate shall be granted, the Commissioner of Transportation shall take into consideration the existing motor transportation facilities and the effect upon them of granting such a certificate, the suitability of the applicant, the financial responsibility of the applicant, the ability of the applicant efficiently to perform the service for which the authority is requested, and the criminal history of the applicant pursuant to Section 13b-392 of the Connecticut General Statutes.

As far as the applicant's financial ability is concerned, the applicant presented evidence of insurance costs of \$11333, vehicle financing of \$21,030.42, maintenance and repairs of \$600, moving supplies of \$0, property tax of \$1,800, advertising costs of \$24,000 and communications costs of \$1,020 for a total expense of \$59,783.42. The applicant has \$61,700.43 in business bank accounts which is sufficient to cover these costs thereby making the applicant financially suitable.

The applicant submitted a criminal record check for Stephen O'Keefe, which showed no criminal record. The applicant has moving experience, having helped move close relatives out of homes and business buildings. In addition, Stephen O'Keefe has been the Co-Owner of the Window Depot of Southern Connecticut for the last three years, overseeing all business operations, including day-to-day financial management. The applicant also has the training and resources provided by the College Hunks franchise network. Based on the evidence presented, the applicant is suitable to handle this proposed operation.

Another factor to be considered is the ability of the applicant to efficiently perform the service for which the authority is requested. The applicant plans to utilize two 2023 Isuzu trucks for the business. The applicant's two vehicles will enable efficient performance of duties.

The last criterion to be considered is the effect on the existing motor carrier facilities by granting this certificate. No moving companies have opposed the application indicating that there would be little, if any, effect on the operators in that area.

Based on the evidence provided, the applicant has proven all the necessary elements to be granted a certificate to operate a household goods moving company from a headquarters in Trumbull.
