### **Construction Manual Update/Version 3.1 January 2020**

This Construction Directive officially releases the Construction Manual update, Version 3.1/ January 2020 (CM - 3.1), and supersedes Construction Directive CD-2017-2, [Construction Manual Update/Version 3.0 January 2017](#). CM - 3.1 incorporates any applicable Engineering/Construction and Construction Directives and Bulletins, along with some miscellaneous enhancements and revisions. CM - 3.1 is categorized as a minor update in accordance with the current FHWA/DOT Stewardship & Oversight Implementation Manual.

CM - 3.1 will be effective for all projects awarded after January 1, 2020. Projects awarded before this date may continue to use the previous version of the Construction Manual (CM - 3.0).

Refer to the Table of Contents for the Sections within each Chapter that have been revised.

As part of the revisions and eConstruction initiatives of the Construction Division, all current manuals, guides, and approved forms formerly maintained in the Construction Manuals folder have been moved from the DOT-Share Drive to the ProjectWise Construction Libraries subfolders 4.100 (Manuals Guides and Training Videos) and the 4.200 (Approved Forms and Inspection Checklists). The Construction Manual folder on the DOT-Share Drive will be archived and taken out of service in the near future so all staff should use ProjectWise as the official location for all content formerly found in the DOT-Share Drive, Construction Manual folder. If any content is identified as missing from the ProjectWise Construction Libraries, the user should immediately contact Douglas Harz ([douglas.harz@ct.gov](mailto:douglas.harz@ct.gov)) or Nelio Rodrigues ([nelio.rodrigues@ct.gov](mailto:nelio.rodrigues@ct.gov)) in the Office of Construction.
