## ENGINEERING BULLETIN

---

Engineering Administrator

### **Life-Cycle Cost Assessment (LCCA) Guidelines**

The [Life-Cycle Cost Assessment \(LCCA\) Guidelines](#) have been finalized and are available from the Department's [Engineering and Construction Information Resources](#). The intent of an LCCA prepared in accordance with these guidelines is to serve as a tool for the Department to evaluate current alternatives as well as serve as a long-term planning tool for a bridge. All Rehabilitation Study Reports and Structure Type studies should have an LCCA performed for alternatives if they are presented to the Department on or after May 2, 2022.
