

I am firmly against instituting Ranked Choice Voting in Connecticut. I am very involved in the political process in my hometown of Newtown and it is hard enough to adequately inform constituents about candidates and issues without adding more complications into the voting process. It is a fact that the complicated process of ranked choice voting leads to voter mistakes and those votes are therefore not counted.

There is no reason to change our voting process. Our current process is fair and simple, let's keep it that way.

Thank you for your consideration.

Very truly yours,

Michele Buzzi
