

TIME FOR CT

TIME FOR CT is an actionable plan to deliver safe, reliable, and fast train service. It is based on a comprehensive speed study of the New Haven Line. With funding, this plan can move forward now. Improving the New Haven Line is just the beginning – it is a foundational first piece in the ‘puzzle’ to connect all of Connecticut with faster, more frequent, and more direct rail service.

TIME FOR CT is an \$8-\$10 billion investment plan that can:

- **Save 10 minutes of travel time** by 2022
- **Reduce travel time by 25 minutes** by 2035
- **Use existing assets and stay within existing right-of-way**
- **Reduce impacts of climate change** by attracting more **people out of their cars**
- **Improve the resiliency of the New Haven Line**
- **Provide a new fleet for faster trip times and an improved passenger experience**
- **Improve access to education, jobs, and urban centers**
- **Support economic recovery** from COVID through improved service
- **Generate an estimated 45,000 direct construction jobs** over 15 years
