

STATE OF CONNECTICUT

DEPARTMENT OF PUBLIC HEALTH

Manisha Juthani, MD
Commissioner

Ned Lamont
Governor
Susan Bysiewicz
Lt. Governor

TO: Health Care Providers and Local Health Directors
FROM: Kathy Kudish, CT Immunization Program Manager
SUBJECT: CT WiZ Confidentiality Agreement Renewal
DATE: February 2, 2023

Kathy Kudish

The Connecticut Department of Public Health Immunization Program's CT WiZ is the Connecticut Immunization Information System that allows real-time, comprehensive immunization information to authorized users as permitted by state law.

CT WiZ benefits enable authorized users to:

- View patients' consolidated vaccination record;
- Forecast patients' due, overdue and invalid vaccinations;
- Electronically report all vaccines administered for all ages;
- Run reminder/recall reports, vaccine coverage reports and more;
- Order vaccines and track vaccine inventory, reducing vaccine wastage;
- Provide the public with official immunization records securely in the CT WiZ Public Portal.

As of July 1, 2022, all health care providers are required to **electronically report all vaccinations administered for all ages to CT WiZ** to ensure patients have complete, consolidated records. **This includes both publicly supplied and privately purchased vaccines.** For more information on access and reporting to CT WiZ, please visit our webpage: <https://portal.ct.gov/immunization/Providers-Landing-Page/CT-WiZ/CT-WiZ-Onboarding>.

In order to access to CT WiZ and ensure confidentiality of the data, please read the Confidentiality Agreement attachment, which is also posted on our laws webpage at: <https://portal.ct.gov/immunization/Laws-and-Regulations>. Please indicate your agreement by signing on the last page. Only authorized providers and users are given access to CT WiZ. Once the Agreement is signed, please keep a copy for your files.

Per state law, you will be asked to renew this confidentiality agreement every two years. **By March 1, 2023, please send a copy of the signed Confidentiality Agreement by either:**
