

How to add Immunizations given today- *Real Time*

For User Interface/Direct Data Entry Clinics in CT WiZ

Connecticut Department of Public Health Keeping Connecticut Healthy

Adding Immunizations in Real Time

Remember for UI/Direct Entry Clinics:

- **Direct Data Entry** of vaccines on the 'AdministerVaccines' screen **WILL** deduct from your on-hand inventory.
 - Always enter the actual date the vaccination was given to the patient.
 - Properly enter <u>eligibility</u> at the patient and dose level.

These are important for an accurate patient record and for reconciling your inventory.

Before you begin, make sure you are in the correct clinic. If you belong to multiple clinics, begin typing in the Provider/Clinic box the name of your clinic or the pin number.

Whichever clinic you are currently in will be displayed in the top blue banner of the screen.

Start by searching for the patient

Clinic Tools	Info:			
Reports	To minimize the creation of duplicates and aid in the identifica and last name and the date of birth.	ttion of existing duplicates, please initially search for your patien	t using the first two letters of the first	

You should perform searches a few different ways to find the patient. Using less characters will give you a larger result, which could be helpful if the patient has a hyphenated last name or a misspelling. You want to make sure you thoroughly search for patients to avoid creating duplicate patients. Once you are on the Patient Search screen:

- Enter your search criteria
- Click on the Search buttonto find any matching patients

Possible search criteria:

- First 2 letters of first and last names (John Smith = Jo & Sm)
- Patient date of birth
- Other identifier (see Identifier Type drop down)
- Patient ID

Once you find the correct patient, click the down arrow next to Demographics and click Immunizations.

To update demographics: (i.e., phone number, CVP eligibility, etc.) click on Demographics to make updates prior to adding immunizations.

 Note: by adding patient eligibility in the Demographics, it will populate eligibility in the Immunizations screen. It can be changed for each dose, if needed.

Remember:

- Confirm you are in the correct patient, as displayed on the top banner of the screen.
- Confirm you are in the correct clinic.

- Enter the Vaccination Date.
 - If it is the current date, double click in the field and it populates the record.
 - If you are not the medical home for the patient, check the "Do not set..." box.
 - If you checked the autopopulate box on the previous screen, the vaccines will be prefilled.
 - If not, click the down arrow and select the vaccine(s) you will be administering. Refer to: "<u>Vaccines Supplied by CVP</u>" to select the correct vaccine.
 - Do not administer if there is no inventory. A red x will appear if you don't have inventory. If you have the vaccine in your On Hand inventory, you see a green check.
- If applicable, add vaccine refusals.
 Refer to: "<u>Adding a Vaccine Refusal</u>."
- Once all fields are filled in, click Create and Administer.

Adding Immunizations in Real Time

TINFLUENZA, SALLY ID: 879790 DOB: 01/30/2000 AGE: 22Y 0M 5D	GENDER: F

- 1. Enter the actual Vaccination Time. If it is the current time, double click in this field.
- 2. Select the **Administered By** in the drop down. If a name is missing, please submit a <u>help desk ticket</u>.
- 3. If you entered a vaccine refusal, it will carry onto this screen.
- 4. Select the correct vaccine you are administering from the drop down. This inventory is pulled directly from your on-hand inventory screen.
- 5. When you select a vaccine, the body site, route, and dosage automatically prefill (you can change these if they are different).
- 6. If you did not administer the vaccine, or need to delete the vaccine, check the appropriate box.
- 7. Patient Level Eligibility will be auto-populated from the Demographics screen onto the Immunizations Screen. Update the Dose Level Eligibility, *if needed*.
- 8. Once all information is complete, click **Update**. All administered vaccine(s) appear on the patient's Immunization Home screen.

How to get help

- Click on the **()** located at the top of the page to get a description of whichever screen you are on.
- Some pages have a Learn More link. Click on this to see short "How To"videos. These appear on a separate page so you can play videos while navigating through CT WiZ.
- Visit the CT WiZ training page <u>here</u>. The training page has numerous documents and step by step videos to help you.
- Still can't find an answer to your question? After you exhausted all of the above options, submit a help desk ticket to get the quickest answer. You may do so by clicking <u>here</u>.
