RE: EM-CL&P-011-140304(e) - Bloomfield Substation  
Notice of Completion

Dear Ms. Bachman:

The Connecticut Light and Power Company ("CL&P") received acknowledgement from the Connecticut Siting Council ("Council") on March 21, 2015 that CL&P's proposed modification of the Bloomfield Substation would comply with the exempt modification criteria in Section 16-50j-57 of the Regulations of Connecticut State Agencies. The Council included conditions regarding the work undertaken pursuant to modification. CL&P submits this letter to provide notice that CL&P has complied with the Council's conditions as follows:

- Written notification to the Council not less than 45 days after construction has been completed. CL&P completed construction on December 29, 2014; this letter provides notice of completion of this modification.
- There were no material changes or other deviations to this modification.

Enclosed are this original and two (2) copies of this Notice of Completion.

Thank you for your attention to this matter. If you have any questions or comments, please call me at (860) 728-4532.

Sincerely,

John R. Morissette
