RE: **EM-AT&T-012-131223** - American Telephone and Telegraph Company (AT&T) notice of intent to modify an existing telecommunications facility located at 130 Vernon Road, Bolton, Connecticut.

Dear Mr. Ianiero:

The Connecticut Siting Council (Council) hereby acknowledges your notice to modify this existing telecommunications facility, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies with the following conditions:

- Any deviation from the proposed modification as specified in this notice and supporting materials with the Council shall render this acknowledgement invalid;
- Any material changes to this modification as proposed shall require the filing of a new notice with the Council;
- Within 45 days after completion of construction, the Council shall be notified in writing that construction has been completed;
- The validity of this action shall expire one year from the date of this letter; and
- The applicant may file a request for an extension of time beyond the one year deadline provided that such request is submitted to the Council not less than 60 days prior to the expiration.

The proposed modifications including the placement of all necessary equipment and shelters within the tower compound are to be implemented as specified here and in your notice received December 23, 2013. The modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to an existing facility site that would not increase tower height, extend the boundaries of the tower site, increase noise levels at the tower site boundary by six decibels, and increase the total radio frequencies electromagnetic radiation power density measured at the tower site boundary to or above the standard adopted by the State Department of Environmental Protection pursuant to General Statutes § 22a-162. This facility has also been carefully modeled to ensure that radio frequency emissions are conservatively below State and federal standards applicable to the frequencies now used on this tower.

This decision is under the exclusive jurisdiction of the Council. Please be advised that the validity of this action shall expire one year from the date of this letter. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65. Thank you for your attention and cooperation.

Very truly yours,

RE: Request for Extension of Time for Construction for Previously Approved Exempt Modifications. Fixed Generator Deployments.

Dear Attorney Laub:

The Connecticut Siting Council (Council) is in receipt of the request from New Cingular Wireless, PCS, LLC (AT&T) for an extension of construction time for the attached exempt modifications requesting fixed generator deployments, dated October 29, 2015. Pursuant to the Council's decision letters for the attached list of previously approved exempt modifications, I have considered your request for an extension of construction time for these exempt modifications and grant an extension of time until June 30, 2016, to complete the construction of these projects.

This extension is granted with the understanding that the Council will be notified should New Cingular Wireless PCS, LLC (AT&T) decide not to proceed with construction of any of the exempt modifications on the attached list.

Sincerely,

Melanie A. Bachman
Acting Executive Director

Re: New Cingular Wireless PCS, LLC (AT&T)
Exempt Modification Approvals
Extension Request

Dear Executive Director Bachman:

We are writing on behalf of our client, New Cingular Wireless PCS, LLC ("AT&T"), to request another one-year extension of various exempt modification acknowledgements (EM's) issued by the Siting Council in response to AT&T filings during the period of December 2013 through March 2014, which were previously extended to December 31, 2015. These filings all relate to fixed generator deployments by AT&T at tower sites in Connecticut which have largely been deferred until 2016. The list of EM sites is the attachment to your letter dated November 20, 2014. Accordingly, we respectfully request that all of the EM's listed be extended for one-year to the end of 2016.

Thank you in advance for your consideration of this request.

Very truly yours,

Daniel M. Laub

Re: Notice of Exempt Modification - Emergency Backup Generator
FA#: 10035019 - 130 Vernon Road, Bolton, CT 06043 - Project Code 2051691326

Dear Ms. Bachman:

American Telephone and Telegraph Company ("AT&T") currently maintains a wireless telecommunications facility at the above referenced address. AT&T's facility consists of antennas at the 165' mark of the existing 280' tower and an existing AT&T equipment room inside an existing shelter. The tower and AT&T's shelter are located within an existing lease area. AT&T's equipment and space for a back-up generator sit on the equipment pad. AT&T does not currently maintain a generator at this cell site.

In an effort to further enhance multiple tenants' network reliability, AT&T intends to modify its facility by installing a new diesel generator outside in a designated 4' x 8' ground space. The generator incorporates a built-in fuel tank as part of the unit. The diesel fuel tanks are double walled for added safety and will be filled by a licensed fuel filling company. The proposed modification will remain within the existing fenced compound within the limits of the existing lease area. The new generator and tank will be surrounded by a security fence and gate. (See Facility Compound Plan attached).

Please accept this letter as notification pursuant to R.C.S.A Section 16-50j-73, for construction that constitutes modification pursuant to R.C.S.A Section 16-50j-72(b)(2). In accordance with R.C.S.A Section 16-50j-73, a copy of this submission is being sent to the Town of Bolton. A copy of this submission is also being sent to Mountaintop Enterprises, Inc., the property owner on which the tower is located.

ATCs' Proposed Wireless Modifications Constitutes An "Exempt Modification"

The proposed modification to the above mentioned Facility constitutes an exempt modification of an existing facility provided for in R.C.S.A Section 16-50j-72(b)(2) and Council regulations promulgated pursuant thereto.

- 1) The proposed modification will not result in an increase in the height of the existing tower.
- 2) The generator and attached fuel tank will remain entirely within the limits of the leased area. The modifications therefor, will not require the extension of the boundary.
- 3) The proposed modification does not increase the noise levels at the boundary by six (6) decibels or more under normal conditions. Proposed modification is only used during emergency power failure.
- 4) The installation of a new generator and attached fuel tank will not change, in any way, radio frequency (RF) emissions at the facility.
- 5) The facility has received all municipal zoning approvals and building permits. (Regs., Conn. State Agencies Section 16-50j-72))

For all the foregoing reasons, American Telephone and Telegraph Company respectfully submits that the proposed modifications to the above-referenced telecommunications facility constitutes an exempt modification under R.C.S.A Section 16-50j-72(b)(2)

Respectfully submitted,

Sal Ianiero 401-533-0728
