RE: EM-AT&T-017-180322 - AT&T Mobility, LLC notice of intent to modify an existing telecommunications facility located at 790 Willis Street, Bristol, Connecticut.

Dear Ms. Kirchmaier:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on March 22, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the filing. The construction drawings prepared by Fullerton Engineering, last revised on February 19, 2018, depict a modified antenna platform on Sheets A4 and A5. It is unclear whether this modified antenna platform was considered in the Structural Analysis Report prepared by American Tower Corporation dated November 9, 2017.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Smartlink provide an updated Structural Analysis Report accounting for all required antenna mount modifications provided in the construction drawings of February 19, 2018 on or before May 1, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to May 1, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

[Handwritten signature of Melanie Bachman]
