Subject: RE: NOTICE OF EXEMPT MODIFICATION – AT&T at 33 Boardman Road, New Milford, CT 06776 AT&T Site # CT2001

There was a minor typographical error in one sentence in the Notice of Exempt Modification that I sent to you, the municipality, the property owner and the tower owner on March 3, 2017. I have mailed the attached Correction letters this afternoon to same parties to whom I mailed the letters on March 3.

One sentence in each letter incorrectly stated “AT&T Wireless also intends to install three (3) Ericsson RRU-32 and replace three (3) RRUs, all to be mounted behind the antennas at the 150 foot level.”

However, the proposed replacement RRU-32 units will be located behind the antennas at the 120 foot level, and not 150. The sentence should have read: **AT&T Wireless also intends to install three (3) Ericsson RRU-32 and replace three (3) RRUs, all to be mounted behind the antennas at the 120 foot level.**

This error is addressed and corrected in the attached letters. Please contact me with any questions or comments. Please accept my apologies for the inconvenience that my error has caused.
