RE: **EM-AT&T-110-181001** – AT&T notice of intent to modify an existing telecommunications facility located at 10 Sparks Street, Plainville, Connecticut.

Dear Mr. Wilson:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on October 1, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the filing due to lack of notice. The Council issued a memorandum on June 22, 2017 to entities requesting exempt modifications requiring a copy of the entire notice and attachments be physically mailed to the chief elected official of the host municipality and the underlying property owner and proof of such mailing shall be submitted to the Council with the request for exempt modification. See attached.

The above referenced request for exempt modification lacks proof that the entire request for exempt modification was physically mailed to the chief elected official of the host municipality and the underlying property owner. Also, the Structural Modification Drawings provided in Appendix D of the request were not properly copied and sections of the sheets have been truncated rendering missing information. Please note that these Structural Modification Drawings were not included in the electronic copy of the request.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Empire Telecom provide proof of proper notice of this exempt modification request to the chief elected official of the host municipality and the underlying property owner and submit a complete copy of the Structural Modification Drawings referenced above, on or before November 5, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to November 5, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Good afternoon.

I received a call from Robin Edwards, Corporation Counsel for the City of Danbury. She was concerned about how notice of this request was provided to the City and indicated that it appeared the request was submitted through their "311 service?" From their website, this appears to be a City Service Request Form. I snipped the link to it below for your convenience. The cover letter indicates that a copy was sent to the Mayor and the Director of Planning. Could someone please confirm that a copy of the letter was actually sent rather than submitted to the "311 service" when you have a chance?

Thanks.
