RE: **EM-AT&T-115-181211** – New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 178 New Haven Road, Prospect, Connecticut.

Dear Mr. Gentile:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on December 11, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified that the Construction Drawings and the Structural Analysis Report provided with the request both indicate a proposed change from a low profile platform mount to a sector mount. Staff also observed that note 6 on Sheets C01 and C02 of the Construction Drawings prepared by Dewberry Engineers Inc., last revised on December 5, 2018, references a mount analysis prepared by B+T Group. However the mount analysis is not provided with this exempt modification request.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Centerline Communications provide the above referenced mount analysis for the proposed equipment that is stamped and signed by a professional engineer duly licensed in the State of Connecticut on or before January 18, 2019. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to January 18, 2019.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman  
Executive Director
