RE: **EM-AT&T-142-180308** – AT&T notice of intent to modify an existing telecommunications facility located at 497 Old Post Road, Tolland, Connecticut.

Dear Mr. Barbagallo:

The Connecticut Siting Council (Council) is in receipt of your correspondence of August 21, 2018 notifying the Council of a minor change to the above referenced matter that was acknowledged by the Council on March 26, 2018.

Given that the guy wires preclude access to properly install the new antenna mounts at the existing rad center and as a result, would potentially create interference issues, this minor change to lower the rad center 6 feet to 120 feet is necessary and appropriate.

The Council hereby acknowledges the submission of the updated Structural Analysis and Construction Drawings, with the condition that a revised Radio Frequency Compliance Report be submitted to the Council within 45 days after completion of construction.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director
