RE: **EM-AT&T-146-180912** – AT&T notice of intent to modify an existing telecommunications facility located at 47 Main Street, Vernon, Connecticut.

Dear Ms. Kirchmaier:

The Connecticut Siting Council (Council) is in receipt of your email of September 25, 2018 requesting an extension of time to submit documentation required to make the above-referenced filing complete in response to the Council's incomplete notice dated September 13, 2018.

The Council hereby grants a one-month extension of time to submit the required documentation by November 16, 2018.

Thank you for your attention to this matter.

Sincerely,

Melanie A. Bachman  
Executive Director

MAB/FC/emr

**To:** Robidoux, Evan  
**Cc:** CSC-DL Siting Council  
**Subject:** RE: Council Incomplete Letter for EM-AT&T-146-180912-MainSt-Vernon

Hi Evan,

We'll need to give the engineers some time to complete the structural analysis as we usually don't run them on non-tower sites. Please accept this e-mail as a formal request for an extension to provide the required documents.

Thanks!

RE: **EM-AT&T-146-180912** - AT&T notice of intent to modify an existing telecommunications facility located at 47 Main St. Vernon, Connecticut.

Dear Ms. Kirchmaier:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on September 12, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the request. The Mount Utilization Report provided in the exempt modification request only assesses the capacity of the existing antenna mounts to support the proposed equipment and not the capacity of the water tank structure supporting that equipment as well as other carrier equipment.

The request for exempt modification does not contain a Structural Analysis report.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Smartlink provide a Structural Analysis Report which includes the total proposed and existing loading, including that of other carriers, on the water tank structure on or before October 16, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to October 16, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman  
Executive Director
