**Re: Application by Dominion Nuclear Connecticut, Inc. to Establish an Independent Spent Fuel Storage Installation at Millstone Power Station, Rope Ferry Road, Waterford, Connecticut**

Dear \_\_\_\_\_:

On or about August 25, 2003, Dominion Nuclear Connecticut, Inc. ("DNC"), the owner and operator of the Millstone Power Station ("Millstone"), intends to file an application with the Connecticut Siting Council to permit the establishment of an Independent Spent Fuel Storage Installation ("ISFSI") at Millstone. The ISFSI would be located in the southerly portion of Millstone's 520-acre property, adjacent to the existing power generating units. The ISFSI will provide for the interim storage of spent nuclear fuel generated at Millstone and is necessary for the continued operation of the plant. Pursuant to Siting Council procedures and State law, the owners of record of property that abuts the Millstone property are entitled to receive notice of the submission of this application. This notice is directed to you either because you may be an abutting landowner or as a courtesy notice.

If you have any questions concerning the application, please direct them either to the Connecticut Siting Council, or me. The Siting Council may be reached at its New Britain, Connecticut office at (860) 827-2935. I can be reached at (860) 444-5271.

Very truly yours,

Daniel A. Weekley
