New Britain, CT 06051

RE: Petition No. 1156
Notice of Completion

ORIGINAL

Dear Chairman Stein:

The Connecticut Light and Power Company doing business as Eversource Energy ("Eversource") received approval from the Connecticut Siting Council ("Council") on June 11, 2015 that Eversource's proposed replacement of an existing 120 feet tall telecommunications facility with a new 150 feet telecommunications facility located at property owned by Eversource, and used as a service center and maintenance yard, at 2 Tindall Avenue in Norwalk, Connecticut is technically, legally, environmentally, and economically feasible and meets public safety concerns, and therefore, is in compliance with Connecticut General Statutes § 16-50k. In its decision, the Council directed Eversource to provide written notice to the Council when the existing tower is removed and the new tower is operational.

Eversource hereby notifies the Council that the proposed construction was completed on June 24, 2016.

Sincerely,

Kathleen M. Shanley
Manager - Transmission Siting
