To the Persons on the Attached List

RE: Petition of Hyatt Hotels Corporation for a Declaratory Ruling for the Location and Construction of a 500-Kilowatt Fuel Cell Customer-Side Distributed Resource at 1800 E. Putnam Ave., Greenwich, Connecticut

Dear Property Owner,

Pursuant to Section 16-50j-40 of the Connecticut Siting Council's (the "Council") regulations, we are notifying you that Hyatt Hotels Corporation intends to file on or shortly after September 4, 2015, a petition for declaratory ruling with the Council. The petition will request the Council's approval of the location and construction of an approximately 500-kilowatt Bloom Energy fuel cell and associated equipment (the "Facility"), located at the site of the Hyatt Hotel at 1800 E. Putnam Ave., Greenwich, Connecticut (the "Site"). Electricity generated by the Facility will be consumed primarily at the Site, and any excess electricity will be exported to the electric grid. The Facility will be fueled by natural gas.

The Facility will be located at the rear of the Hyatt Hotel in an area that is presently paved. The fuel cell is approximately 26'-5" long, 8'-7" wide and 6'-9" high.

Should you have any questions or concerns regarding the proposed Facility, please contact Amy Shanahan at (408) 543-1746 or amy.shanahan@bloomenergy.com.

Sincerely

Bloom Energy

Amy Shanahan
Planning and Permitting Specialist

HYATT HOTELS CORPORATION FOR A DECLARATORY RULING

Pursuant to Conn. Gen. Stat. §§ 4-176 and 16-50k(a) and Conn. Agencies Regs. § 16-50j-38 *et seq.*, Hyatt Hotels Corporation (“Hyatt”), requests that the Connecticut Siting Council (“Council”) approve by declaratory ruling the location and construction of a customer-side distributed resources project comprised of an approximately 500-kilowatt (“KW”) (net) Bloom solid oxide fuel cell Energy Server facility and associated equipment (the “Facility”), located at the rear of the Hyatt building at 1800 E. Putnam Ave., Greenwich, Connecticut (the “Site”). *See* Exhibit 1. The facility will be installed by Bloom and operated by Hyatt.

Conn. Gen. Stat. § 16-50k(a) provides that:

Notwithstanding the provisions of this chapter or title 16a, the council shall, in the exercise of its jurisdiction over the siting of generating facilities, approve by declaratory ruling . . . (B) the construction or location of any fuel cell, unless the council finds a substantial adverse environmental effect or of any customer-side distributed resources project or facility . . . with a capacity of not more than sixty-five megawatts, as long as such project meets air and water quality standards of the Department of Energy and Environmental Protection.”

As discussed fully in this petition, in addition to being a fuel cell facility, the Facility will be a customer-side distributed resources facility under 65 megawatts (“MW”) that complies with the air and water quality standards of the Connecticut Department of Energy and Environmental

Protection (“DEEP”). Additionally, the Facility will not have a substantial adverse environmental effect in the State of Connecticut.

II. DISCUSSION

A. Background

The Facility will be a 500 kilowatt customer-side distributed resources facility consisting of two (2) state-of-the-art Bloom Energy Servers and associated equipment. The Facility will be interconnected to an existing switchgear section located inside the electrical room, near the southwest corner of the Hyatt building (the “Building”). *See* Exhibit 2. Electricity generated by the Facility will be consumed primarily at the Site, and any excess electricity will be exported to the grid.

The Facility will be a “customer-side distributed resources” project because it will be “a unit with a rating of not more than sixty-five megawatts [and is located] on the premises of a retail end user within the transmission and distribution system including, but not limited to, fuel cells” Conn. Gen. Stat. § 16-1(a)(40)(A). Further, in its Final Decision in Docket No. 12-

Potential Transportation Infrastructure Impacts

Connecticut Siting Council Petition # 1190

Location: 1800 E. Putnam Ave. Greenwich

1. Is the proposed facility abutting the right-of-way of a State maintained highway?

X No

Yes - Specify the location and show location on a detail site plan.

2. Is access for construction and maintenance of the proposed facility needed directly from a State maintained highway.

X No

Yes - Identify specify needs and access location.

3. Is the proposed facility within or abutting a State owned Railroad Right-of Way?

X No

Yes - Please provide an area and site plan.

4. Is the proposed facility within a two mile radius of any lands classified as preserved scenic land in accordance with CGS Section 13a-85a, "Acquisition of land adjacent to state highways for preservation and enhancement of scenic beauty and development of rest and recreation areas", or any designated scenic road in accordance with CGS Section 13b-31c, "Designation of scenic roads"?

X No

Yes
