Re: Petition No. 1247 - C-TEC Solar, LLC petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance, and operation of a 3.75 MW solar photovoltaic electric generating facility located at 1 Ballard Road, Thompson, Connecticut

Dear Ms. Bachman:

Enclosed please find the third phase of the Development and Management ("D&M") Plan for the approved Project referenced above. In this filing we have enclosed fifteen (15) reduced sets of project plans, one (1) full size set of the plan, and digital copies.

This submission represents the final of three (3) Project phases we intend to submit to the Siting Council. The initial phase of the Project was submitted on November 30, 2016 for approval at the December 8th Siting Council meeting. We hope that this proposed schedule of submittals in three (3) stages will assist the Siting Council in its review and approval process.

At this time, we respectfully request that the enclosed information (Phase 3 D&M Plan) be reviewed and this matter placed on the January 6th Siting Council agenda for approval. Please feel free to contact me if you have any questions or require additional information.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "BJP", with a long horizontal line extending to the right.

Bradley J. Parsons, PE
Project Manager
