32. As the Council previously requested in Council interrogatory number 3, please provide a detailed site plan with a scale for the proposed facility, including but not limited to, the dimensions and location of the proposed fuel cell facility cooling module, concrete pads, fence design and bollards (if applicable) and utility connections.
33. In response to Council interrogatory number 10, Doosan did not provide a noise analysis report for the proposed fuel cell facility; however, Doosan states it will perform site specific noise studies at host property boundaries to confirm compliance. Please provide such noise analysis report of the proposed fuel cell unit at the host property boundaries.
34. In response to Council interrogatory number 15, Doosan provided a color copy of a zoning map of the whole City of Norwich. Please provide a color map with the host property of the proposed fuel cell facility identified.

36. In Council interrogatory 20, the Council requested a map showing the proposed fuel cell location in context with the Connecticut Coastal Boundary. Please provide such map.
