RE: **PETITION NO. 1267** - Doosan Fuel Cell America Inc. petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the construction, operation and maintenance of a customer-side 460-kilowatt combined heat and power fuel cell facility to be located at the Glastonbury High School, 330 Hubbard Street, Glastonbury, Connecticut.

Dear Mr. Johnson:

The Connecticut Siting Council (Council) is in receipt of the Town of Glastonbury's correspondence dated November 8, 2016 concerning the above-referenced petition. Thank you for taking the time to provide the Council with your comments.

On November 9, 2016, Doosan Fuel Cell America, Inc. withdrew its petition for a declaratory ruling for the installation of a fuel cell facility at the Glastonbury High School without prejudice and this matter is no longer pending before this agency. Please note that should Doosan Fuel Cell America, Inc. decide to present an amended petition for a declaratory ruling to the Council for a fuel cell facility at the Glastonbury High School, a new petition for a declaratory ruling that follows all of the applicable statutory and regulatory requirements must be submitted.

Thank you for your interest and concern in this very important matter.

Very truly yours,

Melanie A. Bachman
Acting Executive Director
