RE: Application for Bloom Energy, as Agent for Medtronic Inc., for the construction of a new ES-5 Bloom Energy Servers solid oxide fuel cell which would provide 500 kilowatts of Customer-Side Distributed Resource at – 195 McDermott Road and 20 Middletown Avenue, North Haven, CT

Dear Ladies and Gentlemen:

Pursuant to Section §16-50j-40 of the Connecticut Siting Council's (the "Council") regulations, we are notifying you that Medtronic Inc. has filed on December 12, 2016, a petition for declaratory ruling with the Council. The petition requests the Council's approval of the location and construction of two (2) Bloom Energy Corporation fuel cells and associated equipment totaling approximately 500 kilowatts (kW). The 300 kW and 200 kW fuel cells would be located at 195 McDermott Road and 20 Middletown Avenue respectively. The buildings are adjacent to one another and located on the Medtronic campus in North Haven, Connecticut. Electricity generated by the Facility will be consumed primarily at the Site, and any excess electricity will be exported to the electric grid. The Facility will be fueled by natural gas.

The purpose of the proposed Facility is to replace the average baseload of the buildings with a renewable energy sourceⁱ and improve reliability of electrical systems and equipment.

Keeping the lines of communication open is an important part of our work in your community. If you have questions about this work, please contact the undersigned or the Council.

Respectfully,

Justin Adams
